Public Memory in Early China K. E. Brashier, 2020-10-26 In early imperial China the dead were remembered by stereotyping them by relating them to the existing public memory and not by vaunting what made each person individually distinct and extraordinary in his or her lifetime Their posthumous names were chosen from a limited predetermined pool their descriptors were derived from set phrases in the classical tradition and their identities were explicitly categorized as being like this cultural hero or that sage official in antiquity In other words postmortem remembrance was a process of pouring new ancestors into prefabricated molds or stamping them with rigid cookie cutters Public Memory in Early China is an examination of this pouring and stamping process After surveying ways in which learning in the early imperial period relied upon memorization and recitation K E Brashier treats three definitive parameters of identity name age and kinship as ways of negotiating a person's relative position within the collective consciousness He then examines both the tangible and intangible media responsible for keeping that defined identity welded into the infrastructure of Han public memory

Rand, 2017-05-11 This study of the philosophy of war in early China examines the recurring debate from antiquity through the Western Han period 202 BCE 8 CE about how to achieve a proper balance between martial wu force and civil wen governance in the pursuit of a peaceful state Rather than focusing solely on Sunzi's Art of War and other military treatises from the Warring States era ca 475 221 BCE Christopher C Rand analyzes the evolution of this debate by examining a broad corpus of early Han and pre Han texts including works uncovered in archeological excavations during recent decades What emerges is a framework for understanding early China's military philosophy as an ongoing negotiation between three major alternatives militarism compartmentalism and syncretism Military Thought in Early China offers a look into China's historical experience with a perennial issue that is not only of continuing relevance to modern day China but also pertinent to other world states seeking to sustain strong and harmonious societies **New Theatre Quarterly 79: Volume 20, Part 3** Simon Trussler, Clive Barker, 2005-03-21 New Theatre Quarterly provides an international forum where theatrical scholarship and practice can meet and where prevailing dramatic assumptions can be subjected to vigorous critical questioning Volume 79 includes Karl Valentin's Illogical Subversion Stand up Comedy and Alienation Effect The Shamen and the Epic Theatre the Nature of Han in the Korean Theatre Dialogism and the Theatre Event Deborah Warner and Fiona Shaw's Medea 2001 The Irony of Passionate Chaos Modernity and Performing Medea Dance Culture and Statutory Politics Chiang Kai Shek and the Myth of Primitivism *The Oxford World History of Empire* Peter Fibiger Bang, Christopher Alan Bayly, Walter Scheidel, 2021 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient

Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases **The ^AOxford World History of Empire** Peter Fibiger Bang,C. A. Bayly,Walter Scheidel,2020-12-02 Volume Two tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Kinney Anne Behnke Kinney,1995-01-01 Chinese in the twentieth century intent on modernizing their country condemned their inherited culture in part on the grounds that it was oppressive to the young The authors of this pioneering volume provide us with the evidence to re examine those charges Drawing on sources ranging from art to medical treatises fiction and funerary writings they separate out the many complexities in the Chinese cultural construction of childhood and the ways it has changed over time listening to how Chinese talked about children whether their own child the abstract child in need of education or medical care the ideal precocious child or the fictional child lets us assess in concrete terms the structures and values that underlay Chinese life Patricia Buckley Ebrey University of Illinois
