**Les Mystères**, 2012-01-01 This collection of essays in English by scholars of international standing presents new insights into the contexts in which the fifteenth century French mystics were created. It is centred upon the remarkable outburst of large scale plays written for urban production and dealing with biblical and hagiological subjects which transformed the art of theatre in France and gave rise to a new and multi faceted theatrical culture. Among the subjects treated are the means by which surviving texts preserve theatrical practice and some of the ways in which the work of the principal dramatists Eustache Mercad Arnoul Gr ban and Jean Michel interact with one another and with the work of others. The nature of some surviving texts is subjected to close scrutiny and this includes detailed work upon some manuscripts and their typology. Attention is also given to the related moralities the convent drama and to the large corpus of Catalan plays which deal with similar topics but in different circumstances. Further contexts are addressed through paradramatic aspects including sermons and the chansons de geste as well as the political environment. One recurring feature is the nature and activities of ubiquitous and powerful evil characters and their theatrical and theological significance. **The Power of Your Other**
