BIBLICAL EXEGESIS Edward D. Andrews,2023-07-16 BIBLICAL EXEGESIS Biblical Criticism on Trial seeks to firmly establish and defend a conservative approach to biblical exegesis while meticulously exposing and critiquing the fallacies and biases prevalent in modern biblical criticism The central thesis posits that liberal moderate biblical criticism incorporating literary criticism rhetorical criticism narrative criticism form criticism tradition criticism redaction criticism structuralism poststructuralism canonical criticism and historical criticism are fundamentally flawed and speculative It highlights that these methods often presented as objective and scientific are indeed reflective of broader ideological systems such as secular humanism the Enlightenment and German idealism which have significantly swayed Western academia and thought over the past four centuries The book argues that these critical methodologies constitute an ongoing assault on the Bible reinforcing scholar biases and distancing biblical interpretation from truth The ultimate goal is to equip readers with a clear understanding of conservative exegetical principles and methods demonstrating how these approaches are grounded in an unswerving commitment to the authority and inerrancy of Scripture thereby offering an antidote to the subjective and ideologically skewed practices of modern biblical criticism It is also a warning Biblical criticism has opened the gates to a flood of pseudo scholarly works whose influence has been to undermine people s confidence in the Bible [Linguistics and the Bible](#) Stanley E.
