Reason,John M. Braxton,2023-07-03 Higher education institutions have already begun to see decreasing enrollment numbers even as higher education enrollment is predicted to drop precipitously starting in 2025 Much of the decrease in enrollment will be driven by demographic trends about which higher education institutions can do little making the retention of students who do enroll that much more important Overall retention rates have stagnated and differential retention rates by race and ethnicity have persisted If higher education institutions researchers and policy makers are to improve retention rates a critical examination of the current state and future directions of retention research is essential This edited volume begins that examination by addressing several questions What are the needed directions in theory and research on college student persistence and how do we translate new theory and research into effective practices Are we asking the right questions looking in the right places or trying to apply out of date theories to new populations In short how can the research community help institutions improve retention in this challenging time     *Students in Discord* C. Robin Boucher,1999-03-30 *Students in Discord* fills a void in the professional literature concerning adolescents with emotional and behavioral disorders by providing theoretical information about psychiatric and psychological diagnoses with practical information about actual public school students who show both externalizing and internalizing disorders In the process the book provides understanding about disorders in childhood and adolescence and enhances understanding of federal guidelines on emotional disturbance specifically those provided in the Individuals With Disabilities Education Act The author provides suggested educational strategies that represent behavioral psychological sociological and environmental models and that aim to both decrease undesirable behaviors and increase desirable ones Theoretical issues covering disorders related to personality disruptive behavior eating mood anxiety and development are illustrated by 57 adolescents whose feelings and behaviors are presented through anecdotal material direct quotes from them and their teachers life facts and student writings Additional perspectives are provided by comparing federal and practical definitional characteristics of emotional disturbance and discussing concerns about the inability of students with emotional and behavioral disorders to

detach the inclusion of socially maladjusted students in the ED emotionally disturbed category and the interrelation of emotional and behavioral disorders **Journal of College Student Development** ,2000 **The College Admissions Officer's Guide** Barbara Lauren,2008 **Higher Education Administration** Rachel S. Goonen,1999-11-30 Goonen and Blechman provide an analysis useful as a desk reference or as a text for practicing and prospective administrators and university counsel They examine the legal points ethical questions and practical steps an administrator or university counsel should be aware of in dealing with some of the most frequently encountered issues in the administration of a college university or other postsecondary institution Each chapter targets a selected area of academic affairs and the format includes four sections legal parameters ethical considerations practical suggestions and an illustrative case Hiring issues compensation and employment issues promotion and tenure terminations non renewals and reductions in force academic freedom student disputes on academic matters and transcript and degree issues are all analyzed Goonen and Blechman provide a general guide that can be readily utilized and understood by those without specific prior training in the law or in higher education administration The discussions and information the guide contains will be valuable to current and prospective practitioners as they seek to balance the legal ethical and practical issues that surface in every decision in the increasingly complex higher education arena Resources in Education ,1998 **Developing Non-Hierarchical**

**Leadership on Campus** Shannon Faris,Kathleen McMahon,Charles Outcalt,2000-10-30 Many problems that plague modern American society including disappearance of community decaying inner cities racial tensions environmental degradation declining civic engagement and the increasing ineffectiveness of government to name a few are in many respects problems of leadership Leadership means not only what elected and appointed public officials do but also the critically important civic work performed by those individual citizens who are actively engaged in making a positive difference in society Clearly one of the major problems with contemporary civic life in America is that too few of our citizens are actively engaged in efforts to effect positive social change Educators seldom acknowledge higher education s possible contribution to these problems or the role that it might play in alleviating them Colleges and universities provide rich opportunities for developing leaders through the curriculum and co curriculum Co curricular experiences not only support and augment the students formal classroom and curricular experience but can also create powerful learning opportunities for leadership development through collaborative group projects that serve the institution or the community These projects can be implemented through service learning residential living community work and student organizations In the first section Alexander W Astin and Helen S Astin two of the most influential authors in education and co principal investigators for the research team that devised Social Change Model of Leadership Development share their insights on the model they helped create Also in this section other leading theoreticians offer provocative and challenging insights into non hierarchical leadership The second section features case studies and other examples from the practical realm Contributions come from a wide array of programs and institutions

from community colleges to Ivy League institutions to urban public universities Because campuses are increasingly diverse leadership programs must not only acknowledge but embrace the multiplicity of identities personified in their students Accordingly the next section offers essays and case studies on complex issues of intersection of leadership and identity The book concludes with two chapters essential for those seeking to access leadership development one focusing on the need for assessment the other containing an account of the first ever instrument designed specifically to assess non hierarchical leadership written by the creator of this instrument
