Tibetan Philip Denwood,1999-11-15 The Tibetan language comprises a wide range of spoken and written varieties whose known history dates from the 7th century AD to the present day Its speakers inhabit a vast area in Central Asia and the Himalayas extending into seven modern nation states while its abundant literature includes much of vital importance to the study of Buddhism After surveying all the known varieties of Tibetan including their geographical and historical background this book concentrates on a phonological and grammatical description of the modern spoken Lhasa dialect the standard spoken variety The grammatical framework which has been specially devised to describe this variety is then applied to the written varieties of Preclassical and Classical Tibetan demonstrating the fundamental unity of the language The writing

system is outlined though all examples and texts are given in roman script and where appropriate the International Phonetic Alphabet The volume includes a comprehensive bibliography Languages of the Himalayas George van Driem,2022-09-12 The survey work Languages of the Himalayas provides a bird s eye view of Himalayan languages and language communities It also constitutes a primary source for much new hitherto unpublished data on several languages The demographic mosaic of the Himalayas today is viewed in a historical and comparative linguistic perspective The reader will find an outline of the historical and prehistorical developments that have determined the modern ethnolinguistic composition of the Himalayan region involving various independent linguistics stocks or language families Maps illustrate the distribution of language communities and trace the routes of ancient migrations There is an illuminating discussion of grammatical features found in Himalayan languages The print edition is available as a set of two volumes 9789004103900 Journal of the Royal Asiatic Society ,1895 Linguistics in East Asia and South East Asia Chao Yuen Ren,Richard B.
