Handbook Of Commonly Used Chinese Herbal Prescriptions:

The Chinese Herbalist's Handbook Dagmar Ehling, Steve Swart, 2002 The Chinese Herbalist's Handbook is a new tool for prescribing and modifying herbal formulas This book makes the practice of herbs easily accessible to Chinese medical practitioners and students For practitioners who rely upon patent herbal formulas but would like to custom tailor formulas to each patient's unique needs this book demystifies the process with instructions and exhaustive cross referencing and indexing *Handbook of Commonly Used Chinese Herbal Prescriptions*, 1983 *Handbook Of Traditional Chinese Medicine (In 3 Volumes)* Stevenson Xutian, Shusheng Tai, Chun-su Yuan, 2014-09-19 For over two thousand years Traditional Chinese Medicine TCM has made many significant contributions to China's growth and prosperity This textbook based on the unique characteristics of TCM discusses its principle theories and presents a comprehensive daily practice guide for health maintenance and disease treatment The book provides clinical practitioners with a fundamental understanding of the essence of TCM We highly recommend this book for students interested in TCM Chinese medicine doctors and other healthcare professionals biomedical researchers and interested individuals Readers will benefit from the inspirational viewpoints discussed in the book [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.), 1965

Seventy Essential TCM Formulas for Beginners Bob Flaws, 1994 At TCM colleges in China undergraduates learn a basic repertoire of between 50 and 100 herbal formulas This includes one or two formulas from each of 21 major categories By learning to modify this core group of formulas with additions and subtractions one will have a basic repertoire of formulas for most clinical occasions This book is not meant to replace or compete with Bensky Barolet's Chinese Herbal Medicine Formulas Strategies It is meant as an outline for prioritized study and use by undergraduates and new practitioners

Clinical Manual of Chinese Herbal Patent Medicines, 3rd Edition Will MacLean, Kathryn Taylor, 2000 This is the eBook version of the third edition October 2016 of the Clinical Manual of Chinese Herbal Medicines The content is identical except for the use of color in the eVersion The content describes the actions indications dosages and potential combinations of over 330 medicines Since the first edition published in 2000 the number of medicines available in the marketplace has expanded considerably New companies have entered the market and some previously available medicines have disappeared Patent medicines are for many practitioners the cornerstone of herbal medicine practice The author believes that patent medicines carefully and correctly applied can be as effective as raw herb decoctions for many common conditions In addition they have numerous advantages not the least of which are improved compliance relatively low cost to the patient and a high degree of quality control The Clinical Manual of Chinese Herbal Patent Medicines is the most up to date text on what is actually available in the market and what is good and of good quality It is an essential addition to the desk and bookshelf of all serious practitioners and students of Chinese medicine In addition to the government registered medicines available in Australia the details a number of classical prescriptions currently available only in the US and Europe One of the nicest features of the text

is its use of small icons in the left margin to indicate use information Each formula is discussed in terms of its TCM Actions Biomedical actions Indications Composition Combinations Dose and Method of Administration and Cautions and Contraindications A specially nice feature are the line drawings of persons illustrating elements of the patterns These are often expressive of the adittudinal and psychological characteristics of those matching the pattern indicated

Comprehensive Guide To Chinese Medicine, A (Second Edition) Ping-chung Leung, 2015-09-07 The Second Edition of this book is a rearranged and enriched version of the previous edition composed of feedback and constructive comments from readers Acupuncture is the most popular form of treatment in Chinese medicine The theories and practice of acupuncture have been revised and rewritten to give readers a clear idea of how it works and when it is to be utilized Botanicals i e herbal medicine form the major core of Chinese medicine practice The potential of botanicals development is wide from casting specific biological activities to preventive uses Three new chapters are offered i for the understanding of the biological activities of herbal medicine ii the products produced from herbs for specific needs and iii the individual s choice for what may suit him her best In this present era of information technology readers should be guided on the use of the Internet and related areas in order to independently secure information for personal use and research needs The last chapter is provided for this practical purpose Since the publication of the First Edition much development has occurred in the field of Chinese medicine All the chapters have been updated and revised accordingly so that general readers those looking for effective treatment as well as those who want to serve their patients better can have a reliable comprehensive reference

160 Essential Chinese Herbal Patent Medicines Bob Flaws, 1999 This is a textbook on and compilation of 160 ready made Chinese herbal medicines Organized according to the same categories as Chinese formulas and prescriptions books it discusses the ingredients functions indications dosages and contraindications of 160 medicines These medicines and the companies that produce them have been selected not only for their clinical utility but also because they are free from heavy metals pesticides Western pharmaceuticals or endangered species The author also discusses how to combine these medicines to treat complex pattern presentations There is an extensive symptom index and a formula index
