Handbook of Medical Library Practice Louise Darling, David Bishop, Lois Ann Colaianni, 1982 **Handbook of Medical Library Practice** Medical Library Association, 1970 PDF 1410 KB *A handbook of medical library practice* Medical library association, 1943 [A History of Medical Libraries and Medical Librarianship](#) Michael R. Kronenfeld, Jennie Jacobs Kronenfeld, 2021-02-11 *A History of Medical Libraries and Librarianship in the United States* From John Shaw Billings to the Digital Era presents a history of the profession from the beginnings of the Army Surgeon General's Library in 1836 to today's era of the digital health sciences library. The purpose of this book is not only to make this history available to the profession's practitioners but also to provide context as medical librarians and libraries enter a new age in their history as the digital information environment has undercut the medical library's previous role as the depository of the print-based KBI information base. The book divides the profession's history into seven eras: 1 The Era of the Library of the Office of the Army Surgeon General and John Shaw Billings 1836-1898; 2 The Era of the Gentleman Physician Librarian 1898 to 1945; 3 The Era of the Development of the Clinical Research Infrastructure NIH the Rapid Expansion in Funded and Published Clinical Research and the Emergence of Medical Librarianship as a Profession 1945-1962; 4 The Era of the Development of the National Library of Medicine Online digital Subject Searching Medline and the Creation of the National Health Science Library Infrastructure 1962-1975; 5 The Medline Era A Golden Age for Medical Libraries 1975-1995; 6 The Era of Universal Access to Information and the Transition from Paper to Digitally Based Medical Libraries 1995-2015; 7 The Era of the Digital Health Sciences Library 2015. Each era is reviewed through discussing the developments in the field and the factors which drove those developments. The book will provide current and future medical librarians and information specialists an understanding of the development of their profession and some insights into its future. *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), *Bulletin of the Medical Library Association* Medical Library Association, 1920 *Libraries without Limits: Changing Needs — Changing Roles* Suzanne Bakker, 1999. The slogan "Information professionals make the difference" was chosen to highlight the 10th anniversary of the European Association for Health Information and Libraries (EAHIL) in 1997. To what effect under which circumstances and how medical librarians in Europe play an active role in medical information management and education is reflected in the collection of papers presented during the 6th European Conference of Medical and Health Libraries in Utrecht, The Netherlands, June 22-27, 1998, entitled "Libraries without Limits: Changing Needs, Changing Roles." Medical libraries are confronted with the international aspects of copyright and license agreements and cope with a fast-growing demand for high-quality medical information in order to bring evidence-based medicine into practice. Medical librarians also serve the public especially in those countries where consumer health information is in the forefront of health care policy.
