Audubon's Elephant Duff Hart-Davis, 2005-04 Audubon s Elephant was the nickname given to John James Audubon s masterpiece The Birds of America an oversized folio of 435 life size ornithological prints that remains to this day the most compelling depiction of bird life in the United States Born in Haiti and raised in France Audubon spent much of his adult life as a struggling American businessman on the frontier where his obsession with birds nearly brought him to financial ruin In 1826 his ambitious project was also in a precarious position his folio remained unfinished without an American publisher willing to fund it Had Audubon not set sail for England his artistic triumph might easily have turned into failure Publisher s

description **The History of Ornithology in Virginia** David W. Johnston,2003 Host to a large and diverse bird population as well as a long human history Virginia is arguably the birthplace of ornithology in North America David W Johnston s History of Ornithology in Virginia the result of over a decade of research is the first book to address this fascinating element of the state s natural history Tertiary era fossils show that birds inhabited Virginia as early as 65 million years ago Their first human observers were the region s many Indian tribes and later colonists on Roanoke Island and in Jamestown Explorers pushing westward contributed further to the development of a conception of birds that was distinctively American By the 1900s planter farmers naturalists and government employees had amassed bird records from the Barrier Islands and the Dismal Swamp to the Blue Ridge and Appalachian Mountains The modern era saw the emergence of ornithological organizations and game laws as well as increasingly advanced studies of bird distribution migration pathways and breeding biology Johnston shows us how ornithology in Virginia evolved from observations of wondrous creatures to a sophisticated science recognizing some 435 avian species David W Johnston taught ornithology at the University of Virginia s Mountain Lake Biological Station for nearly two decades and has edited numerous ecological studies as well as the Journal of Field Ornithology and Ornithological Monographs Books in Print ,1987 **Subject Guide to Books in Print** ,1997
