**Modernism, Magazines, and the British avant-garde** Faith Binckes, 2010-05-20 This book is a re examination of the fertile years of early modernism immediately preceding the First World War During this period how where and under whose terms the avant garde in Britain would be constructed and consumed were very much to play for It is the first study to look in detail at two little magazines marginalised from many accounts of this competitive process Rhythm and the Blue Review By thoroughly examining not only the content but the interrelated networks that defined and surrounded these publications Faith Binckes aims to provide a fresh and challenging perspective to the on going reappraisal of modernism Founded in 1911 and edited by John Middleton Murry with assistance from Michael Sadleir and subsequently from Katherine Mansfield Rhythm and The Blue Review featured a series of pivotal moments Rhythm was the arena for a challenge to Roger Fry's vision of Post Impressionism for the introduction of Picasso to a British audience for early short stories and reviews by Lawrence and for Mansfield's discovery of a voice in which to frame her breakthrough writing on New Zealand A further context for many of these experiments was the extended and acrimonious debate Rhythm conducted with A R Orage's New Age in which issues of the proper gender generation and formulation of modernity were debated month by month However reading magazines as vehicles for avant garde development can only provide half the story The book also pays close attention to their dialogic reproductive and periodical nature and explores the strategies at work within the terminology of the new Crucially it argues that they offer compelling material evidence for the consistently mobile and multiple boundaries of the modern and puts forward a compelling case for focusing upon the specificity of magazines as a medium for literary and artistic innovation

Irish Novels 1890-1940 John Wilson Foster, 2008-02-21 Studies of Irish fiction are still scanty in contrast to studies of Irish poetry and drama Attempting to fill a large critical vacancy *Irish Novels 1890 1940* is a comprehensive survey of popular and minor fiction mainly novels published between 1890 and 1922 a crucial period in Irish cultural and political history Since the bulk of these sixty odd writers have never been written about certainly beyond brief mentions the book opens up for further exploration a literary landscape hitherto neglected perhaps even unsuspected This new landscape should alter the familiar perspectives on Irish literature of the period first of all by adding genre fiction science fiction detective novels ghost stories New Woman fiction and Great War novels to the Irish syllabus secondly by demonstrating the immense contribution of women writers to popular and mainstream Irish fiction Among the popular and prolific female writers discussed are Mrs J H Riddell B M Croker M E Francis Sarah Grand Katharine Tynan Ella MacMahon Katherine Cecil Thurston W M Letts and Hannah Lynch Indeed a critical inference of the survey is that if there is a discernible tradition of the Irish novel it is largely a female tradition A substantial postscript surveys novels by Irish women between 1922 and 1940 and relates them to the work of their female antecedents This ground breaking survey should also alter the familiar perspectives on the Ireland of 1890 1922 Many of the popular works were problem novels and hence throw light on contemporary thinking and debate on the Irish Question After the Irish Literary Revival and creation of the Free State much popular and mainstream fiction became a lost archive neglected evidence indeed of a lost Ireland

*The Transformation of the Psyche in British Primary Care, 1870-1970* Rhodri Hayward, 2014-02-25 Conflicting models of selfhood have become central to debates over modern medicine Yet we still lack a clear historical account of how this psychological sensibility came to be established *The Transformation of the Psyche in British Primary Care 1880 1970* will remedy this situation by demonstrating that there is nothing inevitable about the current connection between health identity and personal history It traces the changing conception of the psyche in Britain over the last two centuries and it demonstrates how these changes were rooted in transformed patterns of medical care The shifts from private medicine through to National Insurance and the National Health Service fostered different kinds of relationship between doctor and patient and different understandings of psychological distress *The Transformation of the Psyche in British Primary Care 1880 1970* examines these transformations and in so doing provides new critical insights into our modern sense of identity and changing notions
