Crop Circles and Climate Change Jerry Lesac,2008 Of all of the arguments ever given by science regarding faith and religion that it is really nothing more than conjecture and it would be that God can t be observed to exist Looking at the topic of climate change and what we are presented with is something altogether different For according to the bible it makes no bones about the fact that when it comes to the weather and it is Almighty God who is ultimately responsible for it all Industrial pollution however it may aggravate the environment in which we live is not the real reason behind what is happening Rather it has got everything to do with another kind of pollution that the bible calls SIN This is what is really happening to our weather and by all appearances these crop circles now and it is reaching a place wherein like Noah s generation could have some serious implications for our own Jerry Lesac is a cook by trade and a layman in the church Considered by many to have the gift of a prophet he comes to the bible with a unique perspective born not out of any formal education but rather taught by God In fact if there was one scripture that could possibly sum up this man s life it would have to be what St Paul said to young Timothy Do not neglect your gift which was given you through a prophetic message 1Tim 4 14 That and perhaps what St John said as well As for you the anointing you received from Him remains in you and you do not need anyone to teach you But as His anointing teaches you about all things and as that anointing is real not counterfeit just as it has taught you remain in Him 1 John 2 27
