Literature and politics in the English Reformation Tom Betteridge, 2017-10-03 This book is a study of the English Reformation as a political and literary event Focusing on an eclectic group of texts unified by their explication of the key elements of the cultural history of the period 1510 1580 the book unravels the political poetic and religious themes of the era Through readings of work by Edmund Spenser William Tyndale Sir Thomas More and John Skelton as well as less celebrated Tudor writers Betteridge surveys pre Henrician literature as well as Henrician Reformation texts and delineates the literature of the reigns of Edward VI Mary Tudor and Elizabeth I Ultimately the book argues that this literature and the era should not be understood simply on the basis of conflicts between Protestantism and Catholicism but rather that Tudor culture must be seen as fractured between emerging confessional identities and marked by a conflict between those who embraced confessionalism and those who rejected it This important study will be fascinating reading for students and researchers in early modern English literature and history

Payne Collier, F.S.A. John Payne Collier, 1866 Handbook to the Popular, Poetical and Dramatic Literature of Great **Britain** William Carew Hazlitt, 1867 The First English Translators of the Classics Carey Herbert Conley,1927

'Ungainefull Arte' Richard A. McCabe,2016-02-05 From antiquity to the Renaissance the pursuit of patronage was central to the literary career yet relationships between poets and patrons were commonly conflicted if not antagonistic necessitating compromise even as they proffered stability and status Was it just a matter of speaking lies to power The present study looks beyond the rhetoric of dedication to examine how traditional modes of literary patronage responded to the challenge of print

as the economies of gift exchange were forced to compete with those of the marketplace It demonstrates how awareness of such divergent milieux prompted innovative modes of authorial self representation inspired or frustrated the desire for laureation and promoted the remarkable self reflexivity of Early Modern verse By setting English Literature from Caxton to Jonson in the context of the most influential Classical and Italian exemplars it affords a wide comparative context for the reassessment of patronage both as a social practice and a literary theme
