**Egypt, the crucible : the unfinished revolution of the Arab world** Harry Hopkins,1969      **Egypt, the Crucible** Harry Hopkins,1969      **The Quest for Hegemony in the Arab World** Podeh,2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945 58 and culminating in the conflict over the Baghdad Pact 1955 58 it sheds new light on Arab politics during the period under review This research concentrates predominantly on the regional actors The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara Cairo Baghdad Damascus Amman and other Arab capitals affected decision makers in Western capitals The Quest for Hegemony in the Arab World is based on newly released British American and Israeli documents as well as on all available Arab sources The study s value rests upon its discussion of the Baghdad Pact a significant event which was hitherto neglected yet marked a watershed in modern Arab history This study s approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined      *Nasser's Egypt, Arab Nationalism, and the United Arab Republic* James P. Jankowski,2002 During the crucial decade of the 1950s in Egypt both Gamal Abdel Nasser and the idea of Arab nationalism were assuming more and more influence in Egypt and the greater Arab world Exploring this phenomenon James Jankowski also offers important insights into the political context in which Nasser maneuvered Jankowski focuses on the period from the 1952 Revolution in Egypt to the dissolution of the short lived union of Egypt and Syria in 1961 and on the outlook and actions of Nasser the dominant figure in Egypt s new revolutionary regime Concisely and convincingly he identifies the unique blend of ideological and practical considerations that led Egypt to a progressively deeper involvement in Arab nationalism He draws on newly available materials from the U S and British archives and on the memoir literature now available in Arabic to present a detailed reconstruction of this formative period in Egyptian political history Jankowski traces Egypt s and Nasser s movement from a peripheral to a central position in Arab nationalist politics

**The Politics of Egypt** Ninette S. Fahmy,2012-10-12 This book addresses two important matters of current concern to Middle East scholars firstly the nature of the Egyptian state and society and the interactive process between them and secondly how change which would finally lead to development can be initiated The book argues that the Egyptian case represents a weak authoritarian state which through its coercive and repressive policies towards various societal forces political parties professional associations and organisations and individuals creates a weak society Individual behaviour in urban and rural communities

sometimes viewed as signs of the strength of societal forces is seen here as a symptom of a weak and fragmented society The existence of a weak society in turn impedes government objectives and hinders the implementation of developmental policies and programmes further weakening the state This being the case change has to be initiated externally in both the political and economic spheres
