Tomasi,1997-05-29 This is the latest volume in a major series that describes selections of the rare books manuscripts and other works of art held at Oak Spring Garden Library a collection formed by Rachel Lambert Mellon The 111 items chosen for this volume on floral illustration since the later Middle Ages include Books of Hours still life and vanitas paintings botanical prints and books of instruction of every kind from planting a garden to making flowers using colored papers or wax Lucia Tongiorgi Tomasi groups the works into chapters on such topics as florilegia women artists tulipomania Dutch and Flemish painting and exotic flowers from distant lands providing an introduction to each chapter that gives the contextual background necessary for a real understanding and appreciation of floral illustration past and present The sheer beauty as well as extraordinary skills encountered for example in manuscript florilegia by Jacob Marrel and Maria Sibylla Merian in hand colored books by Jacques Le Moyne de Morgues and G B Ferrari and in flower studies painted by John Constable Margaret Mee and others are testament to the high status accorded floral illustration over the centuries This handsome richly illustrated volume will attract all those with an interest in rare books and the history of art as well as horticulturalists botanists and garden historians **The Flowering of the Landscape Garden** Mark Laird,1999-03-23 Mark Laird offers a

wealth of visual and literary materials to revolutionize our understanding of the English landscape garden as a powerful cultural expression The Scottish Enlightenment Abroad Janet Starkey,2018-03-20 In The Scottish Enlightenment Abroad Janet Starkey examines the lives and works of Scots working in the mid eighteenth century with the Levant Company in Aleppo then within the Ottoman Empire and those working with the East India Company in India especially in the fields of natural history medicine ethnography and the collection of Arabic and Persian manuscripts The focus is on brothers from Edinburgh Alexander Russell MD FRS Patrick Russell MD FRS Claud Russell and William Russell FRS By examining a wide range of modern interpretations Starkey argues that the Scottish Enlightenment was not just a philosophical discourse but a

multi faceted cultural revolution that owed its vibrancy to ties of kinship and to strong commercial and intellectual links with Europe and further abroad **Apothecaries' Garden** Sue Minter,1996-09-30 Founded in 1673 by the Society of Apothecaries the Chelsea Physic Garden led the world for over 300 years in the research and classification of new plants Sue Minter examines its history and many notable achievements In the Herbarium Maura C. Flannery,2023-05-30 How herbaria illuminate the past and future of plant science Collections of preserved plant specimens known as herbaria have existed for nearly five centuries These pressed and labeled plants have been essential resources for scientists allowing them to describe and differentiate species and to document and research plant changes and biodiversity over time including changes related to climate Maura C Flannery tells the history of herbaria from the earliest collections belonging to such advocates of the technique as sixteenth century botanist Luca Ghini to the collections of poets politicians and painters and to the digitization of these precious specimens today She charts the growth of herbaria during the Age of Exploration the development of classification systems to organize the collections and herbaria s indispensable role in the tracking of climate change and molecular evolution Herbaria also have historical aesthetic cultural and ethnobotanical value these preserved plants can be linked to the Indigenous peoples who used them the collectors who sought them out and the scientists who studied them This book testifies to the central role of herbaria in the history of plant study and to their continued value not only to biologists but to entirely new users as well gardeners artists students and citizen scientists *Dictionary Of British And Irish Botanists And Horticulturists Including plant collectors, flower painters and garden designers* Ray Desmond,1994-02-25 Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed The dictionary s utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists botanic artists and archivists In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth Each entry gives wherever possible details of dates and places of birth and death educational qualifications professional posts honours and awards publications location of plant collections manuscripts drawings and portraits Its main function however is to provide further biographical references to books and periodicals Comprehensive classified indices facilitate access by professions and activities countries and plant interests

The Golden Age of Botanical Art Martyn Rix,2013-09-02 The seventeenth century heralded a golden age of exploration as

intrepid travelers sailed around the world to gain firsthand knowledge of previously unknown continents. These explorers also collected the world's most beautiful flora and often their findings were recorded for posterity by talented professional artists. The Golden Age of Botanical Art tells the story of these exciting plant hunting journeys and marries it with full color reproductions of the stunning artwork they produced. Covering work through the nineteenth century, this lavishly illustrated book offers readers a look at 250 rare or unpublished images by some of the world's most important botanical artists. Truly global in its scope, The Golden Age of Botanical Art features work by artists from Europe, China, and India, recording plants from places as disparate as Africa and South America. Martyn Rix has compiled the stories and art not only of well known figures such as Leonardo da Vinci and the artists of Empress Josephine Bonaparte but also of those adventurous botanists and painters whose names and work have been forgotten. A celebration of both extraordinarily beautiful plant life and the globe trotting men and women who found and recorded it, The Golden Age of Botanical Art will enchant gardeners and art lovers alike.

Skilled Visions Cristina Grasseni, 2007-01-01. Most arguments for a rediscovery of the body and the senses hinge on a critique of visualism in our globalized technified society. This approach has led to a lack of actual research on the processes of visual enskillment. Providing a comprehensive spectrum of case studies in relevant contexts, this volume raises the issue of the rehabilitation of vision and contextualizes vision in the contemporary debate on the construction of local knowledge vs the hegemony of the socio technical network. By maintaining an ethnographic approach, the book provides practical examples that are both accessible to undergraduate students and informative for an academic audience. **The Science and Art of Plants and Gardens in the Development of an American Landscape Aesthetic (1620-1850)**

Brenda Bullion, 1990. [An Oak Spring Herbaria](#) Lucia Tongiorgi Tomasi, Tony Willis, 2019-04-30. This magnificent compendium is the fourth in a series of catalogues describing selections of rare books and other material in the Oak Spring Garden Library, a collection assembled by Mrs Rachel Bunney Lambert Mellon. Herbaria describes sixty three books and manuscripts about herbs and includes exquisite illustrations selected from the works themselves. Spanning the fourteenth to nineteenth centuries and featuring works by Brunfels, Culpeper, Monardes, and Linnaeus among others, this authoritative catalogue will prove fascinating to botanists, bibliophiles, garden historians, and herbalists alike. **Visible Empire** Daniela Bleichmar, 2012-10-08. Between 1777 and 1816, botanical expeditions crisscrossed the vast Spanish empire in an ambitious project to survey the flora of much of the Americas, the Caribbean, and the Philippines. While these voyages produced written texts and compiled collections of specimens, they dedicated an overwhelming proportion of their resources and energy to the creation of visual materials. European and American naturalists and artists collaborated to manufacture a staggering total of more than 12,000 botanical illustrations. Yet these images have remained largely overlooked until now. In this lavishly illustrated volume, Daniela Bleichmar gives this archive its due, finding in these botanical images a window into the worlds of Enlightenment science, visual culture, and empire. Through innovative interdisciplinary scholarship that bridges the histories

of science visual culture and the Hispanic world Bleichmar uses these images to trace two related histories the little known history of scientific expeditions in the Hispanic Enlightenment and the history of visual evidence in both science and administration in the early modern Spanish empire As Bleichmar shows in the Spanish empire visual epistemology operated not only in scientific contexts but also as part of an imperial apparatus that had a long established tradition of deploying visual evidence for administrative purposes

Flowers and Fables Margaret Legge, J. V. G. Mallet, 1984

A Passion for Natural History National Museums and Galleries on Merseyside, 2002 Produced to celebrate the 150th anniversary of the bequest of the 13th Earl of Derby's bird and mammal collections upon which the Liverpool Museum was founded Beautifully illustrated throughout including illustrations by some of the greatest natural history painters this catalogue is a fitting tribute to a pioneering collector who created a resource that remains hugely important in modern times
