Reading the Early Modern English Diary Miriam Nandi, 2021-02-27 Reading the Early Modern Diary traces the historical genealogy formal characteristics and shifting cultural uses of the early modern English diary It explores the possibilities and limitations the genre held for the self expression of a writer at a time which considerably pre dated the Romantic cult of the individual self The book analyzes the connections between genre and self articulation How could the diary come to be associated with emotional self expression given the tedium and repetitiveness of its early seventeenth century ancestors How did what were once mere lists of daily events evolve into narrative representations of inner emotions What did it mean to write on a daily basis when the proper use of time was a heavily contested issue Reading the Early Modern Diary addresses these questions and develops new theoretical frameworks for discussing interiority and affect in early modern autobiographical texts

again more especially the Persians to the idea of Arab superiority The second essay is the famous study on the development of the Hadith the Traditions ascribed to Muhammed in which the Hadith is shown to reflect the various trends of early Islam Goldziher's name is mainly associated with the critical study of the Hadith of which this essay is the chief monument The third essay is about the cult of saints which though contrary to the spirit and letter of the earliest Islam played such an important part in its subsequent development These essays with the author's marvelous richness of information profound historical sense and sympathetic insight into the motive forces of religion and civilization are today as fresh as at the time of their original publication and their reissue is indispensable for the growing number of students of Islam Hamid Dabashi contributes a major eighty five page study of Goldziher's life and scholarship situating both in the intellectual and political currents of his own time while evaluating his work in the context of the current debate over Orientalism **Die Neue**
