Form in a Free Verse Poem

A line is a unit of thought or feeling.

It can be long. (a long or slow thought or feeling)

It can be short. (a quick, choppy idea or feeling)

A line can be one word if you want that word to stand out.

The position of a word in a line makes a difference.

The reader notices the last word in a line, so if you break a line after a word, that word is stressed.

The first word in a line is also in a strong position.

If you want the reader to really notice a word, put it alone on a line.
