**The Bahá'í Magazine**, 1928 A Versatile American Institution David C. Hammack, Helmut K. Anheier, 2013-02-27 America's grantmaking foundations have grown rapidly over the course of recent decades even in the face of financial and economic crises Foundations have a great deal of freedom enjoy widespread legitimacy and wield considerable influence In this book David Hammack and Helmut Anheier follow up their edited volume American Foundations with a comprehensive historical account of what American foundations have done with that independence and power While philanthropic foundations play important roles in other parts of the world the U.S. sector stands out as exceptional Nowhere else are they so numerous prominent or autonomous What have been the main contributions of philanthropic foundations to American society And what might the future hold for them A Versatile American Institution considers foundations in a new way Previous accounts typically focused narrowly on their organization donors and leaders and their intentions but not on the outcome of philanthropy Rather than looking at foundations in a vacuum

Hammack and Anheier consider their roles and contributions in the context of their times and their economic and political circumstances

***What Comes After Nations?*** Harvey Garver, 2018-06-30 WHAT COMES AFTER NATIONS The right question for these turbulent times Much of this turmoil is a result of the conflict between nations around the world Nations and nationalism are the most recent form of governance however while their numbers and sovereign powers increased over time in today s world every nation s sovereignty is under assault by powerful global forces Humanity s history is not just a collection of chance events but instead a long series of focused episodes that saw societies advance from wandering hunter gatherers back in the Stone Age to farmers to developers of cities empires and nations Harvey Garver explores how humanity s development has been motivated guided and energized by the world s orthodox religions and explains how The Baha i Faith and its belief in Progressive Revelation reveals a new spiritual principle leading to a burgeoning worldwide society with peace and prosperity for all humanity Our ever advancing civilization is leading us beyond our current immature and turbulent world eventually and inevitably climaxing with the development of God s Kingdom on Earth as the mature ultimate and highest level of society

**Foundations of Cultural Diplomacy** Nicolas K. Laos, 2011 This original systematic theory of cultural diplomacy opens a new way of thinking about diplomacy politics and culture Dr Laos methodically investigates the relationship between culture and politics and between the reality of the world and the reality of consciousness In so doing he articulates a new approach to international relations theory and the concept of power one based on philosophical arguments about reality history and freedom Dr Laos takes a stark and realistic look at the interplay between culture and politics and makes an intellectually challenging contribution to normative international relations theory The author proposes a new way of defining critical political theory substantially different from the Frankfurt School s approach which leads to a new dynamic understanding of history and he argues that the chessboard of power is not so much on the surface of the earth as in the mental network formed by the communication between consciousnesses He presents an original explanation of the inherent inability of Realpolitik to account for reality throwing light on deep and controversial questions of identity for Europe and the West in general

**Plato and the Foundations of Metaphysics** Hans Joachim Krämer, 1990-01-01 This is a book about the relationship of the two traditions of Platonic interpretation the indirect and the direct traditions the written dialogues and the unwritten doctrines Kramer who is the foremost proponent of the Tübingen School of interpretation presents the unwritten doctrines as the crown of Plato s system and the key revealing it Kramer unfolds the philosophical significance of the unwritten doctrines in their fullness He demonstrates the hermeneutic fruitfulness of the unwritten doctrines when applied to the dialogues He shows that the doctrines are a revival of the presocratic theory renovated and brought to a new plane through Socrates In this way Plato emerges as the creator of classical metaphysics In the Third Part Kramer compares the structure of Platonism as construed by the Tübingen School with current philosophical structures such as analytic philosophy Hegel phenomenology and Heidegger Of the five appendices the most important presents English translations of the ancient

testimonies on the unwritten doctrines These include the self testimonies of Plato There is also a bibliography on the problem of the unwritten doctrines     Bahá'í Sacred Writings and Literature of the Bahá'í Cause ,1929     **The Ascent of Society** John S. Hatcher,2007 In *The Ascent of Society The Social Imperative in Personal Salvation* author John S Hatcher answers questions that have been explored by spiritual seekers for many yearshow does personal spiritual development translate into social experience Is there a social imperative connected with individual spiritual growth Is involvement with others necessary for one to evolve spiritually This penetrating study describes the objective of personal spiritual growth as an ever expanding sense of self that requires social relationships in order to develop Hatcher focuses on the Bah belief that human history is a divinely guided process in which spiritual principles are gradually and progressively expressed in social institutions He demonstrates that the aspirant to spiritual transformation cannot view personal health and development as being possible apart from the progress of human society as a whole
