Founders Of Psychical Research:

The Founders of Psychical Research Alan Gauld, 2019-04-23 Originally published in 1968 The Founders of Psychical Research is centred upon the lives and work of Henry Sidgwick Edmund Gurney and Frederic Myers prominent in the Society for Psychical Research S P R during its early years it is not a history of the Society It passes over important aspects of the S P R s story and deals at some length with matters quite outside it The book frequently gives accounts of paranormal phenomena which if indeed they occurred would not be explainable through any recognisable hypothesis but are treated throughout as unexplained

Essays in Psychical Research William James, 1986 The more than 50 articles essays and reviews collected here for the first time were published by James over a span of some 25 years The record of a sustained interest in phenomena of a highly controversial nature they make it amply clear that James s work in psychical research was not an eccentric hobby but a serious and sympathetic concern

Psychical Research and Thought Transference: Their Meaning and Recent History Eden Paul, 1911

The Invention of Telepathy, 1870-1901 Roger Luckhurst, 2002 The Invention of Telepathy explores one of the enduring concepts to emerge from the late nineteenth century Telepathy was coined by Frederic Myers in 1882 He defined it as the communication of any kind from one mind to another independently of the recognised channels of sense By 1901 it had become a disputed phenomenon amongst physical scientists yet was the royal road to the unconscious mind Telepathy was discussed by eminent men and women of the day including Sigmund Freud Thomas Huxley Henry and William James Mary Kingsley Andrew Lang Vernon Lee W T Stead and Oscar Wilde Did telepathy signal evolutionary advance or possible decline Could it be a means of binding the Empire closer together or was it used by natives to subvert imperial communications Were women more sensitive than men and if so why Roger Luckhurst investigates these questions in an exciting and accessible study that mixes history of science with cultural history and literary analysis

The History of Science in the United States Marc Rothenberg, 2001 Annotation This Encyclopedia examines all aspects of the history of science in the United States with a special emphasis placed on the historiography of science in America Contains more than 500 entries written by experts in the field

Psychic Exploration Edgar D. Mitchell, 2011-07-01 Psychic Exploration A Challenge for Science is a primer on psychic research life s purpose and the meaning of the universe Originally published in 1974 this landmark anthology of nearly thirty chapters on every area of psychic research is finally available again Edgar D Mitchell Apollo 14 astronaut and moonwalker as well as a distinguished researcher of the study of human consciousness brought together eminent scientists to write about issues once considered too controversial to discuss This book includes fascinating chapters on the history of parapsychology telepathy hauntings psychic phenomena and consciousness along with an extensive glossary and index This timeless anthology continues to be appealing as a reference work for those curious about the history of parapsychology fans of the world of psi and readers interested in the meaning of the universe Contributors include Willis W Harman Jean Houston Stanley Krippner Robert

Masters William G Roll Russell Targ Charles T Tart Montague Ullman and many more **Spiritualism and British Society Between the Wars** Jenny Hazelgrove,2000-09-02 Historians of modern British culture have long assumed that under pressure from secular forces interest in spiritualism had faded by the end of the Great War Jenny Hazelgrove challenges this assumption and shows how spiritualism grew between the wars and became part of the fabric of popular culture This book provides a fascinating and lively insight into an alternative culture that flourished and continues to flourish alongside more conventional outlets for spiritual beliefs and needs Studies in Psychical Research Frank Podmore,1897

Psychological Science Under Scrutiny Scott O. Lilienfeld,Irwin D. Waldman,2017-01-03 Psychological Science Under Scrutiny explores a range of contemporary challenges to the assumptions and methodologies of psychology in order to encourage debate and ground the discipline in solid science Discusses the pointed challenges posed by critics to the field of psychological research which have given pause to psychological researchers across a broad spectrum of sub fields Argues that those conducting psychological research need to fundamentally change the way they think about data and results in order to ensure that psychology has a firm basis in empirical science Places the recent challenges discussed into a broad historical and conceptual perspective and considers their implications for the future of psychological methodology and research Challenges discussed include confirmation bias the effects of grant pressure false positive findings overestimating the efficacy of medications and high correlations in functional brain imaging Chapters are authored by internationally recognized experts in their fields and are written with a minimum of specialized terminology to ensure accessibility to students and lay readers **Proceedings of the Society for Psychical Research** Society for Psychical Research (Great Britain),1895 List of members in v 1 19 21 24

The Journal of the American Society for Psychical Research American Society for Psychical Research,1975 List of members in v 1 6 12 The Mind of Edmund Gurney Gordon Epperson,1997 Gurney was also deeply concerned with problems of social welfare and with what are now termed animal rights as his correspondence with Charles Darwin attests In addition Gurney was the author of the earliest significant papers in England on hypnosis and he was one of the founders in 1882 of the Society for Psychical Research **Historical Dictionary of**

Gothic Literature William Hughes,2013 Literary fashions come and go but some hang around longer than others like Gothic literature which has existed ever since The Castle of Otranto in 1764 During this long while it has spread from England to the rest of Great Britain and across to the continent and off to America and Australia filling in the gaps more recently Most of it is in English but hardly all and it has adopted all styles from romanticism to modernism to postmodernism and even adjusted to feminist and queer literature and science fiction We have all read some Gothic tales or if not read then seen them in the cinema since they adapt well to film treatment and it would be hard to find anyone who has not heard of ghosts and vampires let alone Count Dracula and Frankenstein On the other hand some of us are inveterate Gothic fans reading one book or story after the other The Historical Dictionary of Gothic Literature follows this long and winding path first in an extensive

chronology and then a useful introduction which explains the nature of Gothic and shows how it has evolved Obviously the dictionary section has entries on major writers and some of the best known works but also on geographical variants like Irish Scottish or Russian Gothic and Female Gothic Queer Gothic and Science Fiction This is provided in over 200 often substantial and always intriguing entries More can be found in a detailed bibliography including general works but also more specialized ones on different styles and genres and also specific authors This book should certainly interest the fans but also more serious researchers

Journal of the American Society for Psychical Research American Society for Psychical Research, 1919 List of members in v 1 6 12

Spooky Science John Grant, 2015-10-20

Skeptics of the supernatural will enjoy this humorous jaunt through the long history of scientific inquiry into paranormal and psychic phenomena Life after death spirit communication the astral plane reincarnation on the relatively rare occasions when scientists have tried to apply their methods to the paranormal they've often ended up embarrassed fooled by obvious charlatans deluded into making irrational and unsubstantiated claims or frustrated in their attempt to find something that just isn't there John Grant author of *Discarded Science* and *Corrupted Science* investigates the pseudoscience of spooky stuff to fascinating and often hilarious effect

The Outline of Parapsychology Jesse Hong Xiong, 2009-11-09 This is a work of systematic parapsychology The book aims to construct a framework and system of parapsychology taking a comprehensive approach to the field The Outline of Parapsychology states that parapsychology has a different philosophical background from the existing science and religions and posits that pantheism could be the theoretical basis of parapsychology The book also integrates parapsychology with oriental philosophies and New Age movement thought

Philosophy and History of Psychology Elizabeth R Valentine, 2020-04-15 In the World Library of Psychologists series international experts themselves present career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings and their major practical theoretical contributions Elizabeth Valentine has an international reputation as an eminent scholar and pioneer in the field of philosophy and history of psychology This selection brings together some of her best work over the last thirty years A specially written introduction gives an overview of her career and contextualises the selection in relation to changes in the field during this time The first section on Philosophy covers work on different theoretical approaches to psychology introspection and the study of consciousness the mind body problem and different types of explanation in psychology including reductionism The second section From Philosophy to History includes work on the philosophical psychologists G F Stout and James Sully among others The third section on History covers Valentine's more recent historical work on the development of psychology in London both institutional and biographical and includes accounts of both Bedford College and University College and the role of pioneer women psychologists The book enables the reader to trace developments in the philosophy and history of psychology over the last thirty years It will appeal to anyone with interests in these areas as well as being an invaluable resource for graduate and advanced undergraduate courses in

conceptual and historical issues *Text and Context in the Modern History of Chinese Religions* Philip Clart, David Ownby, Chien-chuan Wang, 2020-02-17 *Text and Context in the Modern History of Chinese Religions Redemptive Societies and Their Sacred Texts* is an edited volume Philip Clart David Ownby and Wang Chien chuan offering eight essays on the modern history of redemptive societies in China and Vietnam by an international cast of scholars The focus of the volume is on the texts produced by the various groups examining questions of textual production spirit writing textual traditions how to modernize traditional discourse textual authority the role of texts in making a master a master and the distribution of texts via China s experience of print capitalism Throughout the goal is to explore in depth what some scholars have called the most vital aspect of Chinese religion during the Republican period *Aleister Crowley and Western Esotericism* Henrik Bogdan, Martin P. Research eBooks, including some popular titles.

FAQs About Founders Of Psychological Research Books

What is a Founders Of Psychological Research PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Founders Of Psychological Research PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Founders Of Psychological Research PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Founders Of Psychological Research PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Founders Of Psychological Research PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
