Founders Of The Law In Australia:

A History of Australian Tort Law 1901-1945 Mark Lunney, 2018-01-11 Little attention has been paid to the development of Australian private law throughout the first half of the twentieth century Using the law of tort as an example Mark Lunney argues that Australian contributions to common law development need to be viewed in the context of the British race patriotism that characterised the intellectual and cultural milieu of Australian legal practitioners Using not only primary legal materials but also newspapers and other secondary sources he traces Australian developments to what Australian lawyers viewed as British common law The interaction between formal legal doctrine and the wider Australian contexts in which that doctrine applied provided considerable opportunities for nuanced innovation in both the legal rules themselves and in their application This book will be of interest to both lawyers and historians keen to see how notions of Australian identity have contributed to the development of an Australian law

The Chief Sources of English Legal History Sir Percy Henry Winfield,1925 [Rights and Redemption](#) Ann Curthoys,Ann Genovese,2008 History has been central to a number of heated public debates in recent years As Indigenous people have sought redress through the law the role of history in the courts has become highly charged Rights and Redemption is a detailed investigation of the uses of history and historians in high profile cases involving Indigenous litigants something not

previously attempted Ann Curthoys Ann Genovese and Alexander Reilly look at cases before the Federal Court during the era of the Howard government a time when Indigenous rights and the place of Aboriginal people in the national story were undermined in government laws and policies They investigate how the courts have made use of historians as expert witnesses and how the colonial past has been framed and understood by the courts Rights and Redemption is an important record of a unique period of litigation in Indigenous affairs in Australia and a meditation on ways in which law and history might improve Indigenous rights Book jacket *A Subject Index to Current Literature* Australian Public Affairs Information Service, *Out of the Silence* Robert Foster,Amanda Nettelbeck,2012-09-27 When South Australia was founded in 1836 the British government was pursuing a new approach to the treatment of Aboriginal people hoping to avoid the violence that marked earlier Australian settlement The colony s founding Proclamation declared that as British subjects Aboriginal people would be as much under the safeguard of the law as the Colonists themselves and equally entitled to the privileges of British subjects But could colonial governments provide the protection that was promised Out of the Silence explores the nature and extent of violence on South Australia s frontiers in light of the foundational promise to provide Aboriginal people with the protection of the law and the resonances of that history in social memory What do we find when we compare the history of the frontier with the patterns of how it is remembered and forgotten And what might this reveal about our understanding of the nation s history and its legacies in the present *New Directions for Law in Australia* Ron Levy,Molly O'Brien,Simon Rice,Pauline Ridge,Margaret Thornton,2017-09-22 For reasons of effectiveness efficiency and equity Australian law reform should be planned carefully Academics can and should take the lead in this process This book collects over 50 discrete law reform recommendations encapsulated in short digestible essays written by leading Australian scholars It emerges from a major conference held at The Australian National University in 2016 which featured intensive discussion among participants from government practice and the academy The book is intended to serve as a national focal point for Australian legal innovation It is divided into six main parts commercial and corporate law criminal law and evidence environmental law private law public law and legal practice and legal education In addition Indigenous perspectives on law reform are embedded throughout each part This collective work the first of its kind will be of value to policy makers media law reform agencies academics practitioners and the judiciary It provides a bird s eye view of the current state and the future of law reform in Australia *Before Environmental Law* Benjamin J Richardson,2023-10-05 This landmark open access book unveils the history of defending Australia s natural environment and examines the subject s legal and political contexts from the birth of the nation in 1901 until the advent of the so called modern era of environmental regulation in the late 1960s It rejects the mythology that Australia lacked environmental law before the late 1960s in revealing how many of today s environmental laws from pollution control to nature conservation emerged from precedents or events much earlier in the 20th century This history however reveals a discrepancy between lawmakers greater efficacy to exploit rather than protect

the environment a discrepancy that grew as nature's backlash intensified in a rapidly degrading continent colonised to build the Australian nation In exploring these dynamics the book offers a rich tapestry of case studies illustrated with historic photographs that show the origins of Australia's environmental laws and how they borrowed from international precedents or furnished lessons for other nations Through its multi disciplinary enquiry the book offers scholars and students of environmental law legal history and the environmental humanities a unique story about the failures and successes in the making of environmental law The ebook editions of this book are available open access under a CC BY NC ND 4.0 licence on bloomsburycollections.com Minerals Yearbook United States. Bureau of Mines,1994 Sovereignty, Property and Empire, 1500-2000 Andrew Fitzmaurice,2014-10-23 Adopting a global approach Fitzmaurice analyses the laws that shaped modern European empires from medieval times to the twentieth century **Modern Studies in Property Law - Volume 8** Warren Barr,2015-08-27 This book contains a collection of peer reviewed papers presented at the Tenth Biennial Modern Studies in Property Law Conference held at the University of Liverpool in April 2014 It is the eighth volume to be published under the name of the Conference The Conference and its published proceedings have become an established forum for property lawyers from around the world to showcase current research in the discipline This collection reflects the diversity and contemporary relevance of modern research in property law Incorporating a keynote address by Sir John Mummery retired Lord Justice of Appeal on Property in the Information Age a number of chapters consider the contribution of property law to issues central to the human condition the home health and death Other papers illustrate an enduring need to question and explore fundamental concepts of the subject as well as to consider the challenges of reforming the law Collectively the chapters demonstrate the vibrancy and importance of property law in dealing with modern concerns across the common law world *History for Ready Reference from the Best Historians, Biographers and Specialists* Josephus Nelson Larned,1910 The Australian Constitution and National Identity Anna Olijnyk,Alexander Reilly,2023-05-11 What does Australia's Constitution say about national identity A conventional answer might be not much Yet recent constitutional controversies raise issues about the recognition of First Peoples the place of migrants and dual citizens the right to free speech the nature of our democracy and our continuing connection to the British monarchy These are constitutional questions but they are also questions about who we are as a nation This edited collection brings together legal historical and political science scholarship These diverse perspectives reveal a wealth of connections between the Australian Constitution and Australia's national identity **Directions in Australian Electoral Reform** Norm Kelly,2012-05-01 Australia has a proud history of being an international leader in electoral administration and Australian electoral commissions continue to have a professional non partisan approach to the management of elections Yet their independence is constrained by the electoral laws they need to administer and parliamentary committees charged with the oversight of the conduct of elections do so with a clear partisan bias Elections are all about winners but who decides who the winners will be Voters definitely have a big say but it is

the electoral system that determines how votes translate into seats in parliament Any changes to the electoral system require the support of those in power and it is important to question who benefits from electoral reforms It is not surprising that partisanship plays a role and that governing parties usually benefit although that is not always the case This book assesses Australian electoral reforms of the past 30 years using personal interview data and parliamentary debates to provide a picture of the reform process as well as the outcomes These issues such as who gets to vote the use of postal voting party registration and vote weighting have a profound impact on who wins elections The book also examines Australia's electoral administration testing for professionalism independence and integrity
