

# FOUNDING BROTHERS: THE REVOLUTIONARY GENERATION

Joseph J. Ellis

Uno de los personajes más relevantes de la historia de Estados Unidos es sin duda Benjamin Franklin. Político, científico e inventor nacido en Boston en 1706; importante artífice de la Independencia de Estados Unidos, probablemente el personaje más sabio entre la generación revolucionaria (Ellis 2000, p.108). Franklin estuvo presente en casi todos los acontecimientos importantes: en Filadelfia durante el Congreso continental y la firma de la Declaración de independencia; en París para conseguir la alianza con Francia y para concretar la paz con Gran Bretaña; en la Convención constitucional y en la firma de la Constitución. El más oportuno de los estadistas de la era revolucionaria (Ellis 2000, p.109). Uno de los aspectos más destacados de Franklin fue su posicionamiento frente al desafío de la esclavitud. El 12 de febrero de 1770 arribó a la Casa de representantes una petición firmada por Benjamin Franklin que reclamaba que la esclavitud y el tráfico de esclavos era incompatible con los valores por los que la Revolución americana había luchado y que el "bienestar general" que apela la Constitución faculta al Congreso para tomar cualquier acción que considere "necesaria y adecuada" para eliminar el estigma del tráfico de seres humanos y para "apoyar la restauración de la libertad de todos los negros"(Ellis 2000, p. 83). La esclavitud es uno de los temas clave que desarrolla Joseph Ellis en *Founding Brothers: The Revolutionary Generation*.

**Stereophile** ,2002 *The Mists of Rāmañña* Michael A. Aung-Thwin, 2017-04-01 Scholars have long accepted the belief that a Theravada Buddhist Mon kingdom R ma adesa flourished in coastal Lower Burma until it was conquered in 1057 by King Aniruddha of Pagan which then became in essence the new custodian and repository of Mon culture in the Upper Burmese interior This scenario which Aung Thwin calls the Mon Paradigm has circumscribed much of the scholarship on early Burma and significantly shaped the history of Southeast Asia for more than a century Now in a masterful reassessment of Burmese history Michael Aung Thwin reexamines the original contemporary accounts and sources without finding any evidence of an early Theravada Mon polity or a conquest by

Aniruddha The paradigm he finds cannot be sustained How when and why did the Mon Paradigm emerge Aung Thwin meticulously traces the paradigm s creation to the merging of two temporally causally and contextually unrelated Mon and Burmese narratives which were later synthesized in English by colonial officials and scholars Thus there was no single originating source only a late and mistaken conflation of sources The conceptual methodological and empirical ramifications of these findings are significant The prevalent view that state formation began in the maritime regions of Southeast Asia with trade and commerce rather than in the interior with agriculture must now be reassessed In addition a more rigorous look at the actual scope and impact of a romanticized Mon culture in the region is required Other issues important to the field of early Burma and Southeast Asian studies including the process of Indianization the characterization of classical states and the advent and spread of Theravada Buddhism are also directly affected by Aung Thwin s work Finally it provides a geo political cultural and economic alternative to what has become an ethnic interpretation of Burma s history An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched a collaborative initiative designed to make high quality books open access for the public good The open access version of this book is licensed under Creative Commons Attribution NonCommercial NoDerivatives 4 0 International CC BY NC ND 4 0 which means that the work may be freely downloaded and shared for non commercial purposes provided credit is given to the author Derivative works and commercial uses require permission from the publisher *The Publishers Weekly* ,1904
