Founding Mothers And Others Women Educational Leaders During The Progressive Era:

Founding Mothers and Others A. Sadovnik, S. Semel, 2016-04-30 Interest in progressive education and feminist pedagogy has gained a significant following in current educational reform circles *Founding Mothers and Others* examines the female founders of progressive schools and other female educational leaders in the early twentieth century and their schools or educational movements All of the women led remarkable lives and their legacies are embedded in education today The book examines the lessons to be learned from their work and their lives The book also analyzes whether their leadership styles support contemporary feminist theories of leadership that argue women administrators tend to be more inclusive democratic and caring than male administrators Through an examination of these women this book looks critically at the ways in which the leaders administrative styles and behaviors lend support to feminist claims Leaders in the Sociology of Education Alan R. Sadovnik, Ryan W. Coughlan, 2016-10-26 *Leaders in the Sociology of Education* Intellectual Self Portraits contains eighteen self portraits written by some of the leading sociologists of education in the world Representing the United States the United Kingdom and Hong Kong the authors discuss a variety of factors that have affected their lifetime of scholarship including their childhoods their education and mentors the state of the field during their coming of age the institutions where they have worked the major sociologists during their lifetimes the political and economic conditions during their lifetimes and the social and political movements during their lifetimes These autobiographical essays reveal a great deal not only about their work and their influences but also about themselves Taken as a whole the book provides sociology of knowledge about the creation of sociology of education research since the 1960s It reveals a number of important themes central to all of the authors work including educational inequality the influence of the classical sociological theorists Karl Marx Max Weber and Emile Durkheim and the influence of more recent classical sociologists of education Basil Bernstein Pierre Bourdieu and James Coleman The authors research represents a variety of theoretical and methodological orientations including functionalism conflict and critical theory interactionist theory and feminist theory as well as quantitative qualitative and mixed methods research Finally the editors discuss a number of lessons to be learned from the lives and works of these sociologists of education *Flora White* Linda C. Morice, 2016-10-31 *Flora White* In the Vanguard of Gender Equity draws on a collection of personal papers only recently made available to scholars to present the life of a colorful New England educator who lived from the Civil War to the Cold War Throughout her career White worked to promote the physical and intellectual growth of girls and young women beyond the narrow gender stereotypes of the day Although White s name is not a household word this book represents a newer form of biography in which the life of a lesser known individual serves as a lens for understanding larger social and cultural developments In *Flora White* s case this newer biographical approach produced findings to inform research in both educational history and gender studies For example White s papers correct some longstanding misconceptions about the origins of the progressive education movement and the role women played in it

White's sources also shed light on the complicated relationships of educated but marginalized U.S. women and the prominent men who mentored them. In addition, White's papers show that in order to protect herself from those who might find her words objectionable, she used coded language such as poetry to counter sexist stereotypes and advance her desire for a fuller life for her students and herself. Although upon her death a newspaper obituary praised White for being recognized by men of note in educational circles, her efforts to promote the physical and intellectual development of girls and women helped to create opportunity that is still unfolding today.
