Beam Piper** John F. Carr, 2014-01-28 H Beam Piper is one of science fiction's most enigmatic writers In 1946 Piper appeared seemingly from out of nowhere already at the top of his form He published a number of memorable short stories in the premier science fiction magazine of the time *Astounding Science Fiction* under legendary editor John W Campbell Piper quickly became friends with many of the top writers of the day including Lester Del Rey Fletcher Pratt Robert Heinlein and L Sprague de Camp Piper also

successfully made the turn from promising short story writer to major novelist authoring *Four Day Planet* *Cosmic Computer* *Lord Kalvan of Otherwhen* and *Little Fuzzy* which was nominated for a Hugo award Even those who counted Piper among their friends knew very little about the man or his life as a railroad yard bull in Altoona Pennsylvania This biography illuminates H Beam Piper both the writer and the man and answers lingering questions about his death Appendices include a number of Piper s personal papers a complete bibliography of Piper s works and an essay on Piper s *Terro Human Future*

Magowan,2007-02-13 Beginning in the early 1980s readers advisory services were a widely discussed topic in North American public libraries By 2005 almost every public library in the United States and Canada offered some form of readers advisory service The services offered have changed significantly in ways perhaps disadvantageous to adult North American library patrons This book provides a critical history of readers advisory philosophy and offers a new perspective on the evolution of the service The book analyzes the debate that shaped readers advisory and discusses how the service has assumed its present form The study follows readers advisory through its three prominent stages of development beginning with the period 1870 to 1916 when the service was still a subject of much crucial debate about its meaning and purpose During the second phase 1917 to 1962 readers advisory systematically committed itself to meaningful adult education through serious and purposeful reading The book argues however that during the most recent phase of readers advisory from 1963 until the present contemporary public libraries have turned their backs on the rich heritage of readers advisory services by valorizing the reading of entertainment oriented and commodified genre titles and bestsellers Historical analysis case studies and statistical charts augment the book s central argument
