Byzantine Images and their Afterlives Lynn Jones,2016-12-05 The twelve papers written for this volume reflect the wide scope of Annemarie Weyl Carr's interests and the equally wide impact of her work The concepts linking the essays include the examination of form and meaning the relationship between original and copy and reception and cultural identity in medieval art and architecture Carr's work focuses on the object but considers the audience looks at the copy for retention or rejection of the original form and meaning and always seeks to understand the relationship between intent and perception She examines the elusive nature of center and periphery expanding and enriching the discourse of manuscript production icons and their copies and the dissemination of style and meaning Her body of work is impressive in its chronological scope and geographical extent as is her ability to tie together aspects of patronage production and influence across the medieval Mediterranean The volume opens with an overview of Carr's career at Southern Methodist University by Bonnie Wheeler Kathleen Maxwell Justine Andrews and Pamela Patton contribute chapters in which they examine workshops subgroups and influences in manuscript production and reception Dilyana Angelova Lynn Jones and Ida Sinkevic offer explorations of intent

and reception focusing on imperial patronage relics and reliquaries Cypriot studies are represented by Michele Bacci and Maria Vassilaki who examine aspects of form and style in architecture and icons The final chapters by Jaroslav Folda Anthony Cutler Rossitza Schroeder and Ann Driscoll are linked by their focus on the nature of copies and tease out the ways in which meaning is retained or altered and the role that is played by intent and reception **The Frescoes of Mar Musa**

Al-Habashi Erica Dodd, Pontifical Institute of Mediaeval Studies, 2001 The Religious Figural Imagery of Byzantine Lead Seals II John A. Cotsonis, 2020-03-19 The articles republished in this volume are ground breaking studies that employ a large body of religious figural imagery of Byzantine lead seals ranging from the 6th to the 15th century A number of the studies present tables charts and graphs in their analysis of iconographic trends and changing popularity of saintly figures over time And since many of the seals bear inscriptions that include the names titles or offices of their owners information often not given for the patrons of sacred images in other media these diminutive objects permit an investigation into the social use of sacred imagery through the various sectors of Byzantine culture the civil ecclesiastical and military administrations The religious figural imagery of the lead seals accompanied by their owners identifying inscriptions offers a means of investigating both the broader visual piety of the Byzantine world and the intimate realm of their owners personal devotions Other studies in the volume are devoted to rare or previously unknown sacred images that demonstrate the value of the iconography of Byzantine lead seals for Byzantine studies in general This volume includes various articles focusing on sphragistic images of saints and on the religious imagery of Byzantine seals as a means of investigating the personal piety of seal owners as well as the wider realm of the visual piety and religious devotions of Byzantine culture at all levels A companion volume includes studies dedicated to the image of Christ primarily found on imperial seals various images of the Virgin and narrative or Christological scenes CS1086 The A to Z of the Orthodox Church Michael Prokurat, Michael D. Peterson, Alexander Golitzin, 2010-04-06 Of the three major branches of Christianity Orthodoxy is the least known and most misunderstood The A to Z of the Orthodox Church provides students researchers and specialists with a desk encyclopedia of the theology and theologians saints sinners places and events of the Eastern Church Two millennia of the religion are surveyed in over five hundred concise entries concentrating primarily on the last 150 years Includes an overview of the early Church through the Byzantine and Russian Empires into the present multinational Orthodox presence in the ecumenical movement Many of the general entries cannot be found elsewhere in English and the comprehensive compilation of biographies of 19th and 20th century Orthodox theologians American Russian Greek and many other nationalities is published here for the first time This book includes a detailed 4 000 year chronology illustrations extensive bibliography and an appendix listing the current canonical patriarchs and autocephalous churches Images of the Mother of God Maria Vassilaki, 2017-03-02 Fully illustrated in colour and black and white Images of the Mother of God complements the successful exhibition catalogue of the Mother of God exhibition at the Benaki Museum in Athens It brings together the work of leading

international authorities and younger scholars to provide a wide ranging survey of how the Theotokos was perceived in the Byzantine world It embraces the disciplines of art historians archaeologists traditional and feminist historians as well as theologians philologists and social anthropologists Images of the Mother of God will appeal not just to those interested in Byzantine art and culture but also to scholars of Western Europe in the Middle Ages who are looking for comparative materials in their own work

Epigram, Art, and Devotion in Later Byzantium Ivan Drpić, 2016-07-21 Using epigrammatic poetry as a framework investigates the interplay between art and religious devotion in the later Byzantine period

Four Byzantine and Russian Icons in the Menil Collection, 1992 *Greek Vases: Images, Contexts and Controversies* Clemente Marconi, 2021-08-04 This volume deals with Greek painted vases exploring them from various methodological points of view and moving beyond the traditional focus on connoisseurship and style The volume which represents the proceedings of an international conference sponsored by the Center for the Ancient Mediterranean at Columbia University is an effort to exploit the immense richness of these vases by using them to study general cultural history

The Celebration of the Saints in Byzantine Art and Liturgy Nancy P. Sevcenko, 2023-05-31 The studies in this volume all deal with images and texts that relate to the veneration of the saints in Byzantium after the 9th century Some papers are devoted to the church calendar and the annual commemorations of hundreds of saints through liturgical poetry and sequences of isolated images in fresco icon painting and illuminated manuscripts Others are concerned with the longer and rarer narrative cycles devoted to the life of a single saint cycles found mainly in fresco and on the so called vita icons that first appear in the East in the late 12th century Additional studies deal with the developing role of icons in liturgical ceremonies and with images of a saint being approached by a supplicant or patron A final section is devoted to places made holy by the saints and to their holy relics

Orthodox Cyprus under the Latins, 1191-1571 Chrysovalantis Kyriacou, 2018-10-15 Medieval and Renaissance Cyprus was a fascinating place of ethnic cultural and religious encounters Following almost nine centuries of Byzantine rule Cyprus was conquered by the Crusaders in 1191 becoming until 1571 the most important stronghold of Latin Christianity in the Eastern Mediterranean first under the Frankish dynasty of the Lusignans and later under the Venetians Modern historiographical readings of Cypriot identity in medieval and early modern times have been colored by British colonialism Greek nationalism and Cyprocentric revisionism Although these perspectives have offered valuable insights into the historical experience of Latin ruled Cypriots they have partially failed to capture the dynamics of noncoercive resistance to domination and of identity preservation and adaptation

Orthodox Cyprus under the Latins 1191 1571 readdresses the question of Cypriot identity by focusing on the Greek Cypriots the island's largest community during the medieval and early modern period By bringing together theories from the fields of psychology social anthropology and sociology this study explores continuities and discontinuities in the Byzantine culture and religious tradition of Cyprus proposing a new methodological framework for a more comprehensive understanding of Cypriot

Orthodoxy under Crusader and Venetian rule A discussion of fresh evidence from hitherto unpublished primary sources enriches this examination stressing the role of medieval and Renaissance Cyprus as cultural and religious province of the Byzantine and post Byzantine Orthodox world **Sacred Shock: Framing Visual Experience in Byzantium** Glenn Peers, 2004 Sacred Shock attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art *Images of the Byzantine World* Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena

Crusader Art in the Holy Land, From the Third Crusade to the Fall of Acre Jaroslav Folda, 2005-09-05 Publisher Description **The Power of Icons** Jan Morsink Ikonen (Firm), Simon G. Morsink, 2006 This illustrated book presents a collection of unique icons not usually seen outside the confines of the living room A collection assembled by the brothers Simon and Hugo Morsink both passionate icon lovers and art dealers Accompanying texts to which international experts have contributed explain the meaning of these Greek and Russian icons dating from the 15th to the 19th century while several essays take the reader inside the world of this ancient Christian art form BOOK JACKET **The Glory of Byzantium** Metropolitan Museum of Art (New York, N.Y.), 1997 Serves as both visual and textual record of the exhibition of the same name surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261 Conceived as a sequel to the 1976 exhibition Age of Spirituality which focused on the first centuries of Byzantium Preceding the catalogue 17 essays treat the historical context religious sphere and secular courtly realm of the empire and the interactions between Byzantium and other medieval cultures Abundantly illustrated Annotation copyrighted by Book News Inc Portland OR **Byzantium** Metropolitan Museum of Art (New York, N.Y.), 2004 The fall of the Byzantine capital of Constantinople to the Latin West in

1204 during the Fourth Crusade abruptly interrupted nearly nine hundred years of artistic and cultural traditions. In 1261 however the Byzantine general Michael VIII Palaiologos triumphantly re entered Constantinople and reclaimed the seat of the empire initiating a resurgence of art and culture that would continue for nearly three hundred years not only in the waning empire itself but also among rival Eastern Christian nations eager to assume its legacy. Byzantium Faith and Power 1261 1557 and the groundbreaking exhibition that it accompanies explores the artistic and cultural flowering of the last centuries of the Empire of the Romans and its enduring heritage. Conceived as the third of a trio of exhibitions dedicated to a fuller understanding of the art of the Byzantine Empire whose influence spanned more than a millennium. Byzantium Faith and Power 1261 1557 follows the 1997 landmark presentation of The Glory of Byzantium which focused on the art and culture of the Middle Byzantine era the Second Golden Age of the Byzantine Empire 843 1261. In the late 1970s The Age of Spirituality explored the early centuries of Byzantium's history. The present concluding segment explores the exceptional artistic accomplishments of an era too often considered in terms of political decline. Magnificent works from splendid frescoes textiles gilded metalwork and mosaics to elaborately decorated manuscripts and liturgical objects testify to the artistic and intellectual vigor of the Late and Post Byzantine era. In addition forty magnificent icons from the Holy Monastery of Saint Catherine Sinai Egypt join others from leading international institutions in a splendid gathering of these powerful religious images. While the political strength of the empire weakened the creativity and learning of Byzantium spread farther than ever before. The exceptional works of secular and religious art produced by Late Byzantine artists were emulated and transformed by other Eastern Christian centers of power among them Russia Serbia Bulgaria and Cilician Armenia. The Islamic world adapted motifs drawn from Byzantium's imperial past as Christian minorities in the Muslim East continued Byzantine customs. From Italy to the Lowlands Byzantium's artistic and intellectual practices deeply influenced the development of the Renaissance while in turn Byzantium's own traditions reflected the empire's connections with the Latin West. Fine examples of these interrelationships are illustrated by important panel paintings ceramics and illuminated manuscripts among other objects. In 1557 the Empire of the Romans as its citizens knew it which had fallen to the Ottoman Turks in 1453 was renamed Byzantium by the German scholar Hieronymus Wolf. The cultural and historical interaction and mutual influence of these major cultures the Latin West and the Christian and Islamic East during this fascinating period are investigated in this publication by a renowned group of international scholars in seventeen major essays and catalogue discussions of more than 350 exhibited objects.
