An optimistically levelheaded book about actually dealing with global warming Kirkus Reviews starred review Dieter Helm has turned his agile mind to one of the great problems of our age why the world s efforts to curb the carbon dioxide emissions behind global warming have gone so wrong and how it can do better Pilita Clark Financial Times *The Great War in American and British Cinema, 1918-1938* Ryan Copping,2020-11-10 This book recounts the reception of selected films about the Great War released between 1918 and 1938 in the USA and Great Britain It discusses the role that popular cinema played in forming and reflecting public opinion about the War and its political and cultural aftermath in both countries Although the centenary has produced a wide number of studies on the memorialisation of the Great War in Britain and to a lesser degree the USA none of them focused on audience reception in relation to the Anglo American circulatory system of Trans Atlantic culture **Western Electric News** ,1926 *Populism and Neoliberalism* David Cayla,2021-03-22 Populism and Neoliberalism argues that the roots of populism lay in the contradiction between the democratic ideal which implies that the people should decide and neoliberal governance which seeks to make markets and competition the arbiters of major social developments Neoliberalism is not the product of a clearly conceived ideology but rather a set of doctrines based on a few major principles which have been embraced by decision makers of all kinds with little reassessment along the way In practice a certain art of governing that exploited an economic thinking insensitive to social complexity gradually imposed itself by being wrongly identified as the successor to liberalism The rise of populist movements poses a significant challenge to liberal democracies yet the causes of these movements remain beyond the understanding of experts The explanation of populism is often limited to a mere political analysis Contrary to that this book investigates the economic and social dynamics of the free market system and explains how populism emerges from its imbalances It also aims to explain the emergence of the neoliberal doctrines during the 1930s and to characterise their common features In light of this it explores how the rise of inequality and social discontent create a pressing duty to develop another model and argues that we must now rethink our policies in depth in order to respond to the challenge of authoritarian populism This book marks a significant intervention in the debate about the rise and fall of neoliberalism Its analysis of the links between the failings of neoclassical economics and the failings of neoliberal politics provides essential reading for anyone interested in the damaging impact of neoliberalism the failings of neoclassical economics and explanations for the rise of populism **The Four L Lumber News** ,1919 *The Spectacle of Twins in American Literature and Popular Culture* Karen Dillon,2018-08-03 The cultural fantasy of twins imagines them as physically and behaviorally identical Media portrayals consistently offer the spectacle of twins who share an insular closeness and perform a supposed likeness standing side by side speaking and acting in unison Treating twinship as a cultural phenomenon this first comprehensive study of twins in American literature and popular culture examines the historical narrative within the discourses of experimentation aberrance and eugenics and how it has shaped their representations in the 20th and 21st centuries **The New Materialism** J.K.
