Four Movements For Piano Trio:

Four movements for piano trio Bright Sheng, 1993 Ensemble *Composing the Modern Subject: Four String Quartets by Dmitri Shostakovich* Sarah Reichardt, 2017-07-05 Since the publication of Solomon Volkov's disputed memoirs of Dmitri Shostakovich the composer and his music has been subject to heated debate concerning how the musical meaning of his works can be understood in relationship to the composer's life within the Soviet State While much ink has been spilled very little work has attempted to define how Shostakovich's music has remained so arresting not only to those within the Soviet culture but also to Western audiences even though such audiences are often largely ignorant of the compositional context or even the biography of the composer This book offers a useful corrective setting aside biographically grounded and traditional analytical modes of explication Reichardt uncovers and explores the musical ambiguities of four of the composer's middle string quartets especially those ambiguities located in moments of rupture within the musical structure The music is constantly collapsing reversing inverting and denying its own structural imperatives Reichardt argues that such confrontation of the musical language with itself though perhaps interpretable as Shostakovich's own unique version of double speak also poignantly articulates the fractured state of a more general form of modern subjectivity Reichardt employs the framework of Lacanian psychoanalysis to offer a cogent explanation of this connection between disruptive musical process and modern subjectivity The ruptures of Shostakovich's music become symptoms of the pathologies at the core of modern subjectivity These symptoms in turn relate to the Lacanian concept of the real which is the empty kernel around which the modern subject constructs reality This framework proves invaluable in developing a powerful original hermeneutic understanding of the music Read through the lens of the real the riddles written into the quartets reveal the arbitrary and contingent state of the musical subject's constructed reality reflecting pathologies ended *Edexcel AS and A Level Music Study Guide* Alistair Wightman, Hugh Benham, 2017-10-06 Edexcel AS and A Level Music Study Guide is a definitive study guide for the AS and A Level syllabuses written for exams 2017/2018 onwards This comprehensive guide supports all components of the AS and A Level courses Performing Composing and Appraising covers every set work in detail provides guidance on the full list of composition briefs includes tests and practice essay questions Sample pages are available to view here The Cyril Scott Companion Leslie De'Ath, Lewis Foreman, Desmond Scott, 2018 This Companion explores the life and work of this remarkably creative man It provides a comprehensive analysis and appraisal of all the available music and includes a complete catalogue of his musical works along with a discography Several works both music and literary are here newly catalogued and discussed Altogether the volume gives a broad picture of Scott's entire output in literary dramatic and philosophical genres Publisher The Three Apostles of Russian Music Gregor Tassie, 2021-11-11 The Three Apostles of Russian Music looks at three figures in the Soviet avant garde who led modernist music in the 1920s Mosolov Popov and Roslavets were popular composers who are now unfortunately forgotten These remarkable musicians produced compositions

like the sensational machine music *Foundry* by Mosolov The first symphony by Popov attracted musicians in Europe and America but was banned after the premiere while Roslavets discovered serialism before Schoenberg opening up a new trend in modernism This book is the first study in English of the work lives and legacies of these apostles of the Russian avant garde
