Fourteen Friends Guide To Eldercaring Practical Advice Inspiration Shared Experiences Space For Your Thoughts:

Fourteen Friends' Guide to Eldercaring, 2000 It is estimated that there are 22.5 million caregivers in the United States alone. With medical science constantly extending life expectancy, baby boomers are becoming the first generation to face the large scale problem of caring for elderly parents. The traditional and conventional methods of care aren't enough to handle this new dimension of aging. The Fourteen Friends Guide to Eldercaring is one of the first practical, people-oriented sourcebooks for adults who find themselves taking care of their parents. The Fourteen Friends—now doctors, homemakers, and businesswomen—have been friends since high school. Through the years, they've helped each other with marriages, children, divorces, and deaths. Their spirit of caring and cooperation is embodied in this guidebook. In a light and supportive tone, the Fourteen Friends cover topics like understanding, encouragement, sharing frustration, and caring for the caregiver. They also provide helpful hints and tips, warm photographs, inspirational quotations, and space for the reader's own thoughts. **Older People and Their Caregivers Across the Spectrum of Care** Judith Howe, 2015-12-22 Examine recently developed concepts and strategies to help social workers and caregivers improve the quality of care for senior citizens. **Older People and Their Caregivers Across the Spectrum of Care** focuses on two major aspects of elderly care: assessment and caregiving. This book examines assessment techniques and models used by social workers and other health care professionals to determine the type and extent of care necessary to meet the needs of the elderly. In addition, it voices recent concerns about the use of standardized models for all older adults. This book also addresses the burdens and benefits of being a caregiver to older relatives or friends and mentions several programs made available for caregivers through social services. **Older People and Their Caregivers Across the Spectrum of Care** reviews assessment techniques and practice models that address issues such as abuse and HIV/AIDS care. This book also provides information about currently overlooked issues that will increasingly affect assessment and intervention, including diversity in cultural or religious beliefs and sexual orientation. This book is also unique in its focus on those unsung, unpaid heroes—relatives and friends who assist elderly companions with their financial, social, and physical daily needs. With **Older People and Their Caregivers Across the Spectrum of Care**, you'll find vital information on two elderly victims' services: one involving social services and the other involving criminal action. The challenges of assessing older adults with HIV/AIDS, the pros and cons of long-distance caregiving, a life-course assessment intervention model used at military colleges to help officers prepare proactively for parent care, the Caregivers and Professionals Partnership (CAPP) which employs innovative outreach strategies to family caregivers of adults, the Northport VA Friendly Companion Program which enhances opportunities for interpersonal interaction, African American caregivers and their experiences with African American elders. Social workers and caregivers will find the information in this book vital in their work. Generously enhanced with tables, charts, case studies, references, and personal vignettes. **Older People and Their**
