

THE FOURTH CIRCLE

THE HOARDERS AND THE WASTERS

In the Fourth Circle, Dante and Virgil find the souls of those whose sin was to focus solely on money, which dimmed the light of God inside them. The two types of sinners, the hoarders and the wasters, each roll boulders around the circle, crashing into each other and yelling “‘Why do you hoard?’ and the other ‘Why do you waste?’” at each other. Because they only cared about and focused upon unimportant aspects of their lives, those material things that impacted and benefited them alone, ignoring the light of God, their souls are dimmed to the point that no one can recognize them.

Woods,2013-10-29 For students of mathematics with a sound background in analytic geometry and some knowledge of
determinants this volume has long been among the best available expositions of advanced work on projective and algebraic
geometry Developed from Professor Woods lectures at the Massachusetts Institute of Technology it bridges the gap between
intermediate studies in the field and highly specialized works With exceptional thoroughness it presents the most important
general concepts and methods of advanced algebraic geometry as distinguished from differential geometry It offers a
thorough study of one two three and four dimensional coordinated systems the concepts they entail and their associated
geometrical elements This study culminates with a discussion of n dimensional geometry in an abstract sense of which the
earlier subjects form concrete illustrations As each system of coordinates is introduced the meaning of the linear and
quadratic equations is studied with principal emphasis on the interpretation of equations as well as on a knowledge of useful
geometrical facts The principle of duality is kept at the forefront and the nature of imaginary elements and the conventional
character of the locus of infinity dependent upon the type of coordinates used are carefully explained **Psychological**
