The Place of Poetry Christopher Clausen,2021-10-21 Since the end of the eighteenth century Christopher Clausen asserts poetry has steadily declined in cultural status in the English speaking world yielding its former place as a bearer of truth to the advancing sciences As the position of poetry was more and more threatened its defenders made ever higher claims for its importance even maintaining for a time that it would take the place of religion But though the Romantics brought about a sustained revival of serious poetry for a broad audience the audience

began to dwindle toward the end of the nineteenth century and the decline accelerated as the twentieth century advanced Though some of the cultural changes responsible for this retreat were beyond the control of poets a society in which many people find their chief security and sense of meaning through the possession of certain objects will produce great advertising not great poetry Clausen finds in this situation evidence of an abdication among artists Because modernist poets and their successors abandoned some indispensable principles he believes serious contemporary poetry now has virtually no audience outside of English departments Yet the need for poetry is not less in an era like ours and the opportunities that the end of the twentieth century offers to poetry will not become fully apparent unless and until poets take advantage of them **"The"**

to Ethical Literary Criticism Nie Zhenzhao,2023-09-15 The title is a thorough introduction to ethical literary criticism a critical methodology designed to interpret literature from the perspective of ethics including a whole set of concepts theories and working mechanisms Drawing on ideas from both Western ethical criticism and the Chinese tradition of moral criticism ethical literary criticism contrasts with the former in its occasional lack of a theoretical foundation and applicable methodologies and the latter that tends to make subjective moral judgments Its most ground breaking argument is that while natural selection answers how humans are different from animals physically ethical selection endows human beings with reason and ethical consciousness The ethical nature and edifying function of literature is therefore asserted seeking to unfold in the literary text the ethical choices of human beings as a way to complete ethical selection in society within historical context The arguments and theoretical toolbox inject a unique ethical dimension into literary criticism and help understand anew the ethical and social potency of literature The theoretical elucidation exemplary textual analyses and a supplement of key terminologies and ancillary materials make this book an essential guide for students and general readers interested in ethical literary criticism and scholars of literary criticism ethical criticism and literary theory *Forbidden Games and Video Poems* Yang Mu,Lo Ch'ing,2016-06-01 Two contemporary poets from Taiwan Yang Mu pen name for Wang Ching hsien b 1940 and Lo Ch ing pen name for Lo Ch ing che b 1948 are represented in this bilingual edition of Chinese poetry ranging
