The Fox Woman Kij Johnson,2025-09-23 The Fox Woman is a powerful first novel singing with lyrical prose and touching the deepest emotions A historically accurate fantasy it gives us a glimpse into and an understanding of the history that shaped the people of one of our world s greatest nations But it is also a story about people trying to understand each other and the times they live in people trying to see through illusions to confront the truth of who they are Kij Johnson has created an achingly beautiful love story a fable wrapped in smoke and magic set against the fabric of ancient Japan Johnson brings the setting lovingly to life describing a world of formalities and customs where the exchange of poetry is a form of conversation and everything has meaning from the color of the silks on wears to how one may address others Yoshifuji is a man fascinated by foxes a man discontented and troubled by the meaning of life A misstep at court forces him to retire to his long deserted country estate to rethink his plans and contemplate the next move that might return him to favor and guarantee his family s prosperity Kitsune is a young fox who is fascinated by the large creatures that have suddenly invaded her world She is drawn to them and to Yoshifuji She comes to love him and will do anything to become a human woman to be with him Shikujo is Yoshifuji s wife ashamed of her husband yet in love with him and uncertain of her role in his world She is confused by his fascination with the creatures of the wood and especially the foxes that she knows in her heart are harbingers of danger She sees him slipping away and is determined to win him back from the wild for all that she has her own fox related secret Magic binds them all And in the making and breaking of oaths and honors the patterns of their lives will be changed forever At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

Faces of the Wolf Bernard Charlier,2015-03-31 In his study of the human non human relationships in Mongolia Bernard Charlier explores the role of the wolf in the ways nomadic herders relate to their natural environment and to themselves The wolf as the enemy of the herds and a prestigious prey is at the core of two technical relationships herding and hunting endowed with particular cosmological ideas The study of these relationships casts a new light on the ways herders perceive and relate to domestic and wild animals It convincingly undermines any attempt to consider humans and non humans as entities belonging a priori to autonomous spheres of existence which would reify the nature society boundary into a phenomenal order of things and so justify the identity of western epistemology
