Raylene Haider,2021-06-19 What makes this guide to freedom different from others This is the kind of book with which one would need to spend some time and be willing to do some repeating and revising The author has a deceptively simple style but it's all about helping the reader to dig a little more deeply than might have seemed necessary at one's first reading The Method is based upon the understanding that spiritual awakening is not an attainment but a dissolution These 5 steps are intended to permanently dissolve the deeply ingrained belief that you can make yourself free If these steps are followed through with utter totality awakening will be what's left as a byproduct While no methods work when it comes to awakening all methods fail so in a way any method can be helpful to exhaust the seeker in you This method has been formed specifically for those who have tried every other method under the sun and are ready for defeat This method is intended to be the last method
