**Definición y redefinición de la ciencia política contemporánea** Francisco Javier Jiménez Ruiz, Héctor Zamitz Gamboa, 2022-07-04

Los autores de este libro coinciden en que es importante historiar la Ciencia Política para comprender sus transformaciones pero también consideran importante comprender sus cambios y redefiniciones a la luz de la pluralidad de los enfoques tan ricos metodológicos existentes Parten del principio de que la expresión Ciencia Política es empleada en sentido amplio o en sentido estricto En el sentido amplio la definición denota un estudio de la historia del pensamiento político las instituciones las estructuras los procesos y dinámicas políticas el cual es integrado con rigor y sistematización sobre un riguroso examen de los hechos expuestos con argumentos razonables y un lenguaje apropiado En sentido estricto Ciencia Política designa una real individualizada de estudios especializados que siguiendo los canones de la verdad científica del control comparado y la comprobación empírica ofrece una descripción del mundo político fundada en la adopción de métodos y técnicas de investigación de corte eminentemente cuantitativo La existencia de estas dos grandes tradiciones y la forma en que se entrelazan requiere de una discusión que consideran necesaria entre otras razones porque es útil para definir a la Ciencia Política contemporánea su objeto de estudio sus teorías y sus enfoques metodológicos A partir de este planteamiento este libro contribuye a reflexionar sobre los aspectos más relevantes de un debate que es producto de las redefiniciones de la disciplina y que ha sido concomitante a su institucionalización y desarrollo

**Movimientos sociales y subjetivaciones políticas** Laura Quintana, Anders Fjeld, Étienne

Tassin,2016-11-01 Movimientos sociales y subjetivaciones políticas es el resultado de un trabajo de investigación en común fruto de los intercambios realizados en el marco de un proyecto ECOS NORD COLCIENCIAS entre la Universidad de los Andes y la Universidad Paris VII. Desde una apuesta transdisciplinaria en la que se cruzan las miradas de la filosofía, la antropología, la ciencia política y la sociología, este libro busca aproximarse a ciertos movimientos sociales de Colombia y de Francia trazando tanto líneas de continuidad como de divergencia frente a los problemas que manifiestan y las estrategias que despliegan pero sobre todo prestando especial atención a la manera en que construyen lugares de confrontación desde los cuales pueden emerger otras historicidades, otras subjetividades y otras territorialidades. Por este camino se trata de mostrar cómo tales movimientos abren el espacio de lo posible al producir transformaciones a un nivel que tiene que ver con la cotidianidad de los cuerpos, sus espacios íntimos, sus modos de habitar el territorio pero también a un nivel que atañe a las formas de convivencia y organización local y nacional y a las prácticas democráticas de gestión económica y de participación. Los autores de los artículos aquí reunidos esperan así poder contribuir a los múltiples movimientos emancipadores y a las subjetivaciones disensuales que hoy en día se están dando desde un pensamiento político preocupado por acentuar las posibilidades específicas de los discursos académicos en su tarea de *reparto partage*, es decir, de redistribución de lo sensible y de puesta en común como una tarea que también se juega en las acciones emancipatorias colectivas.

### **Aplicaciones actuales de la comunicación e interacción digitales** Eva Aladro Vico, Graciela Padilla

Castillo,2015-12-28 El Departamento de Periodismo III viene desarrollando desde hace varios años la iniciativa de convocar a investigadores españoles y de otros países a un Encuentro Internacional que celebra cada comienzo de curso. Con pocos recursos pero mucha ilusión el Encuentro viene celebrándose ya casi una década. La idea principal es alimentar la siempre necesaria comunicación entre investigadores más allá de sus foros especializados para saltar las barreras de las reas de conocimiento y de investigación y producir la creatividad que toda hibridación implica. El presente volumen da cuenta de las aportaciones que año a año se han ofrecido en este Encuentro con las garantías que el carácter público universal y gratuito del mismo nos proporcionan. El único requisito para poder realizar una ponencia y publicar su correspondiente investigación de apoyo en nuestro marco académico es la calidad de las propuestas y la efectividad de las presentaciones. Como en el caso de la revista académica CIC Cuadernos de Información y Comunicación nuestro otro buque insignia, como Departamento universitario de investigación nos guiamos fundamentalmente por la calidad del contenido de las aportaciones y la necesidad de difundir ideas y conocimientos de verdadera valía. Aunque este objetivo parece obvio si echamos un vistazo al panorama de producciones en nuestro país y fuera de él en el ámbito de la investigación en comunicación y periodismo y medios veremos que no es tan obvio y al contrario empieza a ser imperativo recuperar la idea exclusiva del contenido de calidad como

objetivo de toda actividad académica. Son muchas las presiones competitividad y desviaciones que la comunicación académica experimenta. El volumen que aquí prologamos es un ejemplo de iniciativa altruismo y de cooperación entre voluntarios y entusiastas de la investigación en Comunicación e Información. Este volumen recoge las investigaciones de diverso nivel académico.

*Anales de las XI Jornadas Nacionales de Investigadores en Economías Regionales* Néstor Domínguez, 2018-06-26

Las XI Jornadas se inscriben en un escenario económico complejo en el que se agudizan las tradicionales dificultades de un sistema productivo periférico en un contexto comercial internacional restrictivo y en el que surgen nuevos problemas sociales emanados de la descoordinación actual en los instrumentos de política económica. En un contexto signado por la disputa de la renta agraria y por el valor generado en los circuitos productivos regionales en el que la gestión estatal define una redistribución regresiva del ingreso nacional se generan diversas experiencias asociativas de la pequeña y mediana empresa cooperativas autogestionadas y ligadas a la agricultura familiar. Estas experiencias suelen ligarse directa o indirectamente con programas estatales que trascienden gestiones y que usualmente perviven como dispositivos tendientes a mitigar o atenuar conflictos por el territorio y sus recursos. Este diagnóstico no por complejo exime a los académicos de un necesario compromiso con el registro y análisis de estas experiencias. Por el contrario las investigaciones sirven como insumo básico para conocer las dinámicas propias de nuestro país.
