the manuscript fragments does vivid justice to the meticulous painstaking and rigorous decades of masterful work that Li Ling the world's foremost authority on the subject has poured into the reconstruction, decipherment and interpretation of these important textual artifacts much of which is brought to light here for the first time. Scott Cook Tan Chin Tuan Professor of Chinese Studies National University of Singapore. The collaboration of the two most eminent experts of Chinese paleography, Li Ling in Beijing and Donald Harper in Chicago, is again a felicitous demonstration of what Sino-American cooperation can achieve. Lothar Ledderose, Senior Professor, Institute of East Asian Art History, Heidelberg University. This volume compiles and assesses with immaculate accuracy and critical acumen all extant relevant material that Li Ling uncovered during his over forty-year pursuit for answers in and out of China among archaeologists, historians, paleographers and conservation scientists, a true model of interdisciplinary and international research and an inspiration to all scholars in early China studies. Jenny F. So, Senior Curator for Early Chinese Art, 1990-2000 National Museums of Asian Art, Smithsonian Institution. Professor Li Ling's splendid book offers to the Western public the first ever comprehensive monograph on the Chu Silk Manuscripts from Zidanku. This masterful research to which he has devoted more than forty years is not only a minute investigation, the most extensive of its kind on the famous manuscripts, but also a very valuable contribution to our understanding of the intellectual life of the Late Warring States period. Alain Thote, Emeritus Professor, cole Pratique des Hautes études, Paris. Complemented by high quality color pictures, old photographs, hand facsimiles of the manuscripts as well as an updated bibliography and a comprehensive index of the ancient graphs, this English edition should undoubtedly be regarded as the new reference edition for these excavated texts. Olivier Venture, Professor, cole Pratique des Hautes études, Paris.

These nearly one hundred scrolls open a window onto a vibrant period of Jewish history for which we previously had few historical sources. Scholars and advanced students will find a general introduction to the corpus, detailed richly illustrated profiles of individual scrolls and up-to-date studies of their Aramaic language and scribal practices. The goal of the book is to foster and support further study of these scrolls against the historical backdrop of early Judaism and ancient Mediterranean scribal cultures.
