terms and even when the same term was finally adopted its connotation varied sometimes widely from the Chinese term of phrase as normally used by the Chinese For instance *kl sa* undoubtedly has a meaning in Sanskrit similar to that of *i e* affliction distress trouble In Buddhism affliction or as it may be understood from Chinese the afflicters distressers troublers means passions and illusions and consequently *fan nao* in Buddhist phraseology has acquired this technical connotation of the passions and illusions Many terms of a similar character are noted in the body of this work Consequent partly on this use of ordinary terms even a well educated Chinese without a knowledge of the technical equivalents finds himself unable to understand their implications
