and Sichuan Pepper: A Sweet-Sour Memoir of Eating in China (First edition) Fuchsia Dunlop, 2009-08-24 Not just a smart memoir about cross cultural eating but one of the most engaging books of any kind I've read in years Celia Barbour O The Oprah Magazine After fifteen years spent exploring China and its food Fuchsia Dunlop finds herself in an English kitchen deciding whether to eat a caterpillar she has accidentally cooked in some home grown vegetables How can something she has eaten readily in China seem grotesque in England The question lingers over this autobiographical food and travel classic Publishers Weekly *Scent and Scent-sibilities* Kelvin E. Y. Low, 2008-12-18 Smells are distinct and ubiquitous They envelope us enter our bodies and emanate from us Yet they remain relegated to the background of everyday life experiences This book attempts to highlight the social salience of smell in social actors day to day encounters where issues involving morality and social othering presentation of self and personhood intertwine with analyses of smell as a social conduit These encounters include the experiences of anosmic individuals which capture non olfactive social worlds that are rarely addressed hitherto Further deliberations on olfaction in relation to social memberships of race class and gender elucidate upon social boundaries of inclusion and exclusion constructed vis vis smell as a social marker Olfactive adjudications of race and class are then expanded upon through the author's discussion of various smellscape in the context of Singapore Olfaction sanitary discipline and olfactive simulacra are also expounded upon thereby underscoring the control and manipulation of scents in the contexts of modernity and postmodernity Smells therefore offer insights into the workings of social relations and power structures in society By predicating analyses on empirical data procured from Singapore along

with case studies from the region and beyond this study draws much needed attention on smell which has been a neglected sense in the wider literature In addition the concurrent employment of the other senses will also be explicated which therefore demonstrates the social character of smell and other sensory modalities through historical and contemporary milieux This book is a pioneering effort in offering sociocultural interpretations of scents based on primary and secondary data analysed using the trajectory of sociology of everyday life
