Framing America A Social History Of Art:

Framing America Frances K Pohl,2024-01-22 The most socially conscious introduction to American art now even more inclusive

Framing America Frances Kathryn Pohl,2002 For more than a generation critics and scholars have been revising and expanding the customary definition of American art A tradition once assumed to be mainly European and oriented toward painting and sculpture has been enriched by the inclusion of other media such as ceramics needlework and illustration and the work of previously marginalized groups such as Native Americans African Americans Latinos and Asian Americans Now in a brilliant combination of original scholarship and synthesis Frances Pohl s Framing America provides the first comprehensive survey of this new enlarged vision of American art Here are the many strands of North America s history and visual culture the first contacts of the Spanish with the Aztecs and other Native Americans the post Revolutionary definition of nationhood the visionary feeling for landscape and nature the images of social and military conflict of the nineteenth century and the tempering of the twentieth century s heady plunge into modernism by the Depression World War II the Cold War and the culture wars Pohl s account is an adroitly inclusive fusion of many themes Her discussion of the early definition of nationhood includes the traditional painters of the grand manner West Copley Trumbull and Stuart But Stuart s portraits of George Washington for instance are also discussed in relation to portrayals of Washington in wood marble and embroidery and the vogue for mourning pictures after Washington s death which create a domestic counterpoint to the more institutional portrayals Pohl s description of the great landscape tradition of Cole Durand and Church shows how the optimistic assertion of a sublimesense of the American nation was accompanied by a sense of loss as the nation expanded westward As our appreciation of the rich cultural diversity of American life has grown our sense of American art its sources its motives its possibilities has also become more varied Fresh and contemporary Framing America embraces what our history can tell us about our art and what our art can tell us about our past and present

Life Stories of Women Artists, 1550-1800 Julia K. Dabbs,2020-08-18 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari's Lives of the Artists the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of these lives The volume includes an appended index to women artists life stories in biographical compendia of the period

Aaron Douglas Aaron Douglas,Renée Ater,2007-01-01 *Fire Light* Linda M. Waggoner,2014-10-22 Artist teacher and Red Progressive Angel De Cora 1869 1919 painted Fire Light to capture warm memories of her Nebraska Winnebago childhood In this biography Linda M Waggoner draws on that glowing image to

illuminate De Cora's life and artistry which until now have been largely overlooked by scholars. One of the first American Indian artists to be accepted within the mainstream art world, De Cora left her childhood home on the Winnebago reservation to find success in the urban Northeast at the turn of the twentieth century. Despite scant documentary sources that elucidate De Cora's private life, Waggoner has rendered a complete picture of the woman known in her time as the first real Indian artist. She depicts De Cora as a multifaceted individual who, as a young girl, took pride in her traditions, forged a bond with the land that would sustain her over great distances, and learned the role of cultural broker from her mother's Mnishtia family. After studying with famed illustrator Howard Pyle at his first Brandywine summer school, De Cora eventually succeeded in establishing the first Native Indian art department at Carlisle Indian School. A founding member of the Society of American Indians, she made a significant impact on the American Arts and Crafts movement by promoting indigenous arts throughout her career. Waggoner brings her broad knowledge of Winnebago culture and history to this gracefully written book, which features more than forty illustrations. *Fire Light* shows us both a consummate artist and a fully realized woman who learned how to traverse the borders of Red identity in a white man's world.

[Behind Closed Doors](#) Richard Aste, 2013-09-10

A critical contribution to the burgeoning field of Spanish colonial art, *Behind Closed Doors* reveals how art and luxury goods together signaled the identity and status of Spanish Americans struggling to claim their place in a fluid New World hierarchy. By the early sixteenth century, the Spanish practice of defining status through conspicuous consumption and domestic display was established in the Americas by Spaniards who had made the transatlantic crossing in search of their fortunes. Within a hundred years, Spanish Americans of all heritages had amassed great wealth and had acquired luxury goods from around the globe. Nevertheless, the Spanish crown denied the region's new moneyed class the same political and economic opportunities as their European-born counterparts. New World elites responded by asserting their social status through the display of spectacular objects at home, as pointed reminders of the empire's dependence on silver and other New World resources. The private residences of elite Spaniards, Creoles, American-born white Spaniards, mestizos, and indigenous people rivaled churches as principal repositories for the fine and decorative arts. Drawing principally on the Brooklyn Museum's renowned colonial holdings among the country's finest, this book presents magnificent domestic works in a broad New World Spanish and British context. In the essays within, the authors lead the reader through the elite Spanish American home, illuminating along the way a dazzling array of both imported and domestic household goods. There, visitors would encounter European-inspired portraiture, religious paintings used for private devotion, and also as signifiers of status and objects that spoke to the owner's social and racial identity.
