Framing In Discourse:

Framing in Discourse Deborah Tannen, 1993 The concept of framing has been pivotal in research on social interaction among anthropologists sociologists psychologists and linguists This collection shows how the discourse analysis of frames can be applied to a range of social contexts Tannen provides a seminal theoretical framework for conceptualizing the relationship between frames and schemas as well as a methodology for the discourse analysis of framing in interaction Each chapter makes a unique theoretical contribution to frames theory while showing how discourse analysis can elucidate the linguistic means by which framing is accomplished in a particular interactional setting Applied to such a wide range of contexts as a medical examination psychotic discourse gender differences in sermon performance boys sportscasting their own play teasing among friends a comparison of Japanese and American discussion groups and sociolinguistic interviews the discourse analysis of framing emerges here as a fruitful new avenue for interaction analysis

Framing and Perspectivising in Discourse Titus Ensink, Christoph Sauer, 2003-05-14 In discourse verbal messages are framed speakers offer cues on the basis of which hearers are able to anchor the verbal message to the context Furthermore speakers cannot contribute to the discourse without at the same time showing their view on the subject matter of the discourse the content of a discourse is necessarily displayed from a certain perspective Both the framing and perspectivising of verbal messages are not static but subject to possible changes during the development of the discourse Both concepts function at the intersection of a psychological cognitive and a social functional approach to discourse In this volume eight contributions are brought together which offer theoretical tools for describing and explaining framing and perspectivising devices in the production and comprehension of discourse and apply them to the analysis of several types of discourse such as political satire letters to the editor everyday narrations and newspaper reports

Frames of Understanding in Text and Discourse Alexander Ziem, 2014-10-15 How do words mean What is the nature of meaning How can we grasp a word's meaning The frame semantic approach developed in this book offers some well founded answers to such long standing but still controversial issues Following Charles Fillmore's definition of frames as both organizers of experience and tools for understanding the monograph attempts to examine one of the most important concepts of Cognitive Linguistics in more detail The point of departure is Fillmore's conception of frames of understanding an approach to cognitive semantics that Fillmore developed from 1975 to 1985 The envisaged Understanding Semantics U Semantics is a semantic theory sui generis whose significance for linguistic research cannot be overestimated In addition to its crucial role in the development of the theoretical foundations of U semantics corpus based frame semantics can be applied fruitfully in the investigation of knowledge building processes in text and discourse

Speaking of Crime Patricia E. O'Connor, 2000-01-01 Speaking of Crime explores how inmates speak of their lives and in particular how they speak of crime What is the power of speech for prisoners What do their uses of pronouns and choices of verbs reveal about them their experiences of violence their relationships with other

prisoners and their likelihood for change In this fascinating book Patricia E O Connor probes beneath the surface of prison speech by examining over one hundred taped accounts of narratives of violence made by African American inmates of a U S maximum security prison The inmates manner of speaking about their lives and acts of violence not just what they talk about but how they talk about it supplies important clues to their senses of identity and feelings of agency The use of second person pronouns when speaking about themselves and a reliance on distinctive verbal devices such as irony and constructed dialogue provide important insights into the way prisoners see their world and help condition how they interact with it

Framing Borders in Literature and Other Media Werner Wolf, Walter Bernhart, 2006 This book is both a contribution to an interdisciplinary study of literature and other media and a pioneering application of cognitive and frame theoretical approaches to these fields In the temporal media a privileged place for the coding of cognitive frames are the beginnings while in spatial media physical borders take over many framing functions This volume investigates forms and functions of such framing spaces from a transmedial perspective by juxtaposing and comparing the framing potential of individual media and works After an introductory theoretical essay which aims to clarify basic concepts the volume presents eighteen contributions by scholars from various disciplines who deal with individual media

Framing Climate Change in the EU and US After the Paris Agreement Frank Wendler, 2022-07-01 Political responses to climate change are shaped by beliefs and ideas How does discourse on climate action and its contestation affect policy making Addressing this question the book compares EU and US policy making since the Paris Agreement and its framing by key political institutions The empirical part analyses the structure linkages and contestation of frames to evaluate the contrasting spaces of climate politics in both systems As the first direct comparison of EU and US climate governance since the Paris Agreement the book advances current research on the politics of climate change the politicization of multi level

governance and the role of discourse for policy change Creating Language Crimes Roger W. Shuy, 2005-09-15 This book by Roger W Shuy the senior figure in forensic linguistics is the first to explain in an accessible way the vital role that linguistic evidence and its proper analysis play in criminal investigations Shuy provides compelling case studies of how language functions in investigations involving among others wired undercover operatives and the interrogation of suspects He makes the point that language evidence can be as important as physical evidence but yet does not enjoy the same degree of scrutiny by investigators attorneys and the courts Beyond this however his more controversial thesis is that police frequently misuse or manipulate language using various powerful controversial strategies in order to intentionally create an impression of the targets guilt or even to get them to confess This book makes its case by analyzing a dozen criminal cases involving a variety of crimes such as fraud bribery stolen property murder and others About half involve co operating witnesses who do the tape recording and the other half undercover police officers These cases demonstrate how undercover operatives use different conversational strategies such as overlapping conversation ambiguity interruption refusing to take no for an answer and others to create a negative impression of the targets on later listeners Creating Language Crimes provides a fascinating window into a little known and discussed facet of law enforcement It will appeal to anyone concerned with language particularly sociolinguists and discourse analysts as well as to those involved in law enforcement and criminal cases Struggles for Reproductive Justice in the Era of Anti-Genderism and Religious Fundamentalism Rebecca Selberg, Marta Kolankiewicz, Diana Mulinari, 2023-06-29 This open access book engages with the concept of reproductive justice by exploring case studies of struggles around abortion in the context of rising anti genderism religious fundamentalism and ethno nationalism Based on rich qualitative data offering in depth analyses from different geographical political and cultural contexts the book explores how reproductive justice is understood contested and given meaning Chapters further develop the Black feminist concept of reproductive justice in a critical dialogue with postcolonial theory and explore the strength of transnational feminist practices This book thus offers a fresh approach to the issue of abortion by engaging with contemporary political and cultural processes and it expands the narrow notions of women s rights particularly notions of property rights over bodies towards an analysis of the political economy of social reproduction and how it affects bodies that can be pregnant This volume will be of interest to scholars with interests in reproductive justice anti gender politics and religious fundamentalism **Persuasion in Public Discourse** Jana Pelclová, Wei-lun Lu, 2018-08-08 This book approaches persuasion in public discourse as a rhetorical phenomenon that enables the persuader to appeal to the addressee s intellectual and emotional capacities in a competing public environment The aim is to investigate persuasive strategies from the overlapping perspectives of cognitive and functional linguistics Both qualitative and quantitative analyses of authentic data including English Czech Spanish Slovene Russian and Hungarian are grounded in the frameworks of functional grammar facework and rapport management classical rhetoric studies and multimodal discourse analysis and are

linked to the constructs of re framing conceptual metaphor and blending mental space and viewpoint In addition to traditional genres such as political speeches news reporting and advertising the book also studies texts that examine book reviews medieval medical recipes public complaints or anonymous viral videos Apart from discourse analysts pragmaticians and cognitive linguists this book will appeal to cognitive musicologists semioticians historical linguists and scholars of related disciplines

On Gendering Texts Athalya Brenner, Dijk-Hemmes, 2023-01-16 *On Gendering Texts* is a wonderful book in a field that demonstrates its maturity by this publication It discusses the important and traditional issue of authorship Whereas the idea of a unique and divinely inspired biblical author has long been abandoned the issue of authorship itself has not The possibility that women might have contributed to the production of the Bible has not been taken seriously and yet the idea that everything is male unless otherwise proven is hardly acceptable What can one do The two authors of this book shrewdly displace the question Rather than worrying about unprovable historical authors they consider gender positions authority gendered textuality and attributions of gender within the text voice world view and ideological content Each of these issues is important and the gesture of raising them in connection with that of authorship alone makes this book worthwhile This book is both unique and in line with a growing tradition a climatic point in the developing area of feminist biblical study from the Foreword by Mieke Bal

Metadiscourse in Digital Communication Larissa D'Angelo, Anna Mauranen, Stefania Maci, 2021-12-15 In this book a solid and emerging group of international researchers contributes to the theory of metadiscourse and to our understanding of the role metadiscourse and related meta phenomena may play in digital forms of communication Providing examples of new research methods and approaches the authors investigate progressively hybridized academic and non academic genres that have migrated from analogue to digital format The book offers valuable insights on how digital communication has changed today's communication environments and provides examples of research methods needed to capture that change This volume will be appreciated by scholars and graduate students interested in linguistics corpus linguistics and metadiscourse

Discursive Illusions in Public Discourse Aditi Bhatia, 2015-05-15 This book presents a unique perspective into the investigation and analysis of public discourses such as those of the environment politics and social media springing from issues of key relevance to contemporary society including the War on Terror the Arab Spring and the climate change debate Employing a qualitative approach and drawing on data which comprises both written and spoken discourses including policy documents political speeches press conferences blog entries informational leaflets and corporate reports the book puts forward a unique theoretical framework that of the Discourse of Illusion The research draws on discourse analysis in order to develop and implement a multi perspective framework that allows a closer look at the intentions of the producer actor of various discourses power struggles within social domains in addition to the socio political and historical contexts which influence the individual repositories of experience that create multiple often contesting arguments on controversial issues consequently giving rise to discursive illusions *Discursive Illusions in Public*

Discourse Theory and practice intensively explores the discourse of illusion within multifarious dimensions of contemporary public discourses such as Political Voices in Terrorism Activist Voices in New Media Corporate Voices in Climate Change This book will particularly appeal to researchers working within the field of discourse analysis and more generally for students of postgraduate research and specialists in the field of language linguistics and media The book can also be used as a guide for non specialists in better understanding the complexities of public discourses and how they shape society s perceptions of some key social and political issues Rethinking Social Movements Jeff Goodwin,James M. Jasper,2004 This landmark volume brings together some of the titans of social movement theory in a grand reassessment of its status For some time the field has been divided between a dominant structural approach and a cultural or constructivist tradition The gaps and misunderstandings between the two sides as well as the efforts to bridge them closely parallel those in the social sciences at large This book aims to further the dialogue between these two distinct approaches to social movements and to show the broader implications for social science as a whole as it struggles with issues including culture emotion and agency Visit our website for sample chapters **Knowledge and Identity** Gabrielle Ivinson,Brian Davies,John Fitz,2010-11-23 What in the digital era is knowledge Who has knowledge and whose knowledge has value Postmodernism has introduced a relativist flavour into educational research such that big questions about the purposes of education have tended to be eclipsed by minutiae Changes in economic and financial markets induce a sense that we are also experiencing an intellectual credit crunch Societies can no longer afford to think about the role of education merely in relation to national markets and national citizenry There is growing recognition that once again we need big thinking using big theoretical ideas in working on local problems of employability sustainability and citizenship Drawing on aspects of Bernstein s work that have attracted an international following for many years the international contributors to this book raise questions about knowledge production and subjectivity in times dominated by market forces privatisation and new forms of state regulation The book is divided into three sections Part one extends Bernstein s sociology of knowledge by revitalizing fundamental questions such as what is knowledge how is it produced and what are its functions within education and society in late modernity It demonstrates that big theory like big science provides immense resources for thinking ourselves out of crisis because in contradistinction to micro theory we are able to contemplate global transformations in ways which otherwise would remain unthinkable Part two considers the new hybrid forms of knowledge that are emerging in the gap opened up between economic markets and academic institutions across a range of countries Bernstein said in the 1970s that schools cannot compensate for society but we might now ask can universities compensate for the economy Part three adds new conceptual tools to the understanding of subjectivity within Bernstein s sociology of knowledge and elaborates conceptual developments about pedagogic regulation consciousness and embodiment This book will appeal to sociologists educationists and higher educators internationally and to students on sociology of education curriculum and policy studies courses *Context-Sensitive Decision Support Systems*

ExtrACTION Kirk Jalbert, Anna Willow, David Casagrande, Stephanie Paladino, 2017-06-26 This timely volume examines resistance to natural resource extraction from a critical ethnographic perspective Using a range of case studies from North Central and South America Australia and Central Asia the contributors explore how and why resistance movements seek to change extraction policies evaluating their similarities differences successes and failures A range of ongoing debates concerning environmental justice risk and disaster sacrifice zones and the economic cycles of boom and bust are considered and the roles of governments free markets and civil society groups re examined Incorporating contributions from authors in the fields of anthropology public policy environmental health and community based advocacy ExtrACTION offers a robustly argued case for change It will make engaging reading for academics and students in the fields of critical anthropology public policy and politics as well as activists and other interested citizens

Communicating and Organizing in Context Beth Bonniwell Haslett, 2013-06-17 Communicating and Organizing in Context integrates Giddens structuration theory with Goffman's interaction order and develops a new theoretical base the theory of structurational interaction for the analysis of communicating and organizing This book will be a valuable resource for students and scholars as an orientation to the field of organizational communication

Multilingualism, Discourse, and Ethnography Sheena Gardner, 2012 Over the last twenty years sociolinguistic research on multilingualism has been transformed Two processes have been at work first an epistemological shift to a critical ethnographic approach which has contributed to a larger turn toward post structuralist perspectives on social life Second the effects of globalization transnational population flows new communication technologies transformations in the political and

economic landscape have sparked increasing concern about the implications of these changes for our understanding of the relationship between language and society. A new sociolinguistics of multilingualism is being forged, one that takes account of the new communicative order while retaining a central concern with the processes in the construction of social difference. The contributors to this volume have been at the forefront of these epistemological shifts. They write here about the conceptual and methodological challenges posed by these shifts and the profound changes that we are witnessing in the late modern era.
