Malapeyre,1840 **Anticommunism in French Society and Politics, 1945-1953** Aaron Clift,2023-06-20 Anticommunism in French Society and Politics 1945 1953 evaluates the prevalence of anticommunism among the French population in 1945 to 1953 and examines its causes character and consequences through a series of case studies on different segments of French society These include the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations Aaron Clift contends that anticommunism was more widespread and deeply rooted than previously believed and had a substantial impact on national politics and on these social groups and organisations Furthermore he argues that the study of anticommunism allows us a deeper understanding of the values they regarded as the most important to defend Although anticommunism was a diverse phenomenon this work identifies common discourses including portrayals of communism as a threat to the nation the colonial empire the traditional family private property religion the rural world and Western civilisation It also highlights common aims such as the rehabilitation of wartime collaborators and tactics such as the invocation of apoliticism While acknowledging the importance of the Cold War it rejects the assumption that anticommunism was an American import or foreign to French society and demonstrates links between anticommunism and anti Americanism It concludes that anticommunism drew its strength from the connection or even conflation of communism with perceived negative social changes that were seen to threaten traditional French civilisation interacting with the postwar international and domestic environment and the personal experiences of individual anticommunists **Tableau historique de l'etat et des progres de la literature francaise, depuis 1789; par M.-J. de Chenier** Marie-Joseph : de Chénier,1817 **Le Progrès** ,1861 Civil Affairs Handbook United States. Army Service Forces,1943 *French Fascism* Robert Soucy,1995-01-01 Did fascism have a significant following in France in the 1930s Were its supporters predominantly from the political right or left This provocative book in conjunction with its acclaimed predecessor *French Fascism The First Wave* demolishes the notion that fascism never took hold in France Robert Soucy argues that France has a long standing fascist tradition one that arose he argues more from counterrevolutionary forces on the right than from forces on the left Analyzing fascist double talk Soucy underscores the social and economic conservatism of such mass movements as Francisme the Solidarit Fran aise the Parti Populaire Fran ais and the Croix de Feu as well as the ideological and membership crossovers between them Examining police reports of the era he penetrates beneath the socialist rhetoric of these movements and describes their financial backing from the steel and electricity industries and the middle and lower middle class constituencies rather than workers who provided most of their recruits Soucy investigates why thousands of French men and women found fascist ideas attractive during this period and what fueled the more authoritarian

and brutal aspects of French fascism According to Soucy these tendencies seen most recently in the right wing activity of Jean Marie Le Pen s National Front periodically emerge from perceived threats from alien elements in French society whether they be Communists Socialists immigrants Jews feminists hedonists democrats or liberals soft on Marxism and secularism *Tableau de la marche et des progrès de la littérature française au XVI. siècle ...* Saint-Marc Girardin,1828
