

# Les langues

Le Maghreb a une histoire singulière dans laquelle il partage (*shares*) des racines (*roots*) arabo-berbères. En 1989, on a créé l'Union du Maghreb arabe (L'UMA) avec l'intention de réunir les cinq pays (l'Algérie, le Maroc, la Tunisie, la Mauritanie et la Libye) aux moyens économiques et politiques.

Tous les pays maghrébins, à l'exception de (*except for*) la Libye, sont considérés francophones aujourd'hui d'une manière ou d'autre (*one way or another*).

## Français Au Maghreb:

**L'avenir du français** Jacques Maurais,Pierre Dumont,Jean-Marie Klinkenberg,Bruno Maurer,Patrick Chardenet,2008

Les auteurs ont cherché à évaluer les impacts à long terme de la mondialisation et de l'assise de l'Europe des nouvelles technologies de l'information et des changements démographiques sur la place du français dans le monde. Le parti pris editorial a été celui de produire un ouvrage allant à l'essentiel illustré de cartes et de tableaux graphiques le plus court et le plus synthétique possible composé de monographies qui sont le reflet de chercheurs de sensibilité et de style différents issus de tous les horizons de l'espace francophone et n'hésitant pas à engager sur des sujets où les certitudes sont rares. Les sociolinguistes auraient bien en peine de faire seuls le tour d'un tel sujet. Les graphiques et monographies économistes politiques acteurs de la francophonie ont mis leur contribution. La variété des points de vue atteint jusqu'à l'orthographe certains auteurs ayant opté pour appliquer les recommandations de simplification orthographique de 1992 que le lecteur ne soit pas surpris de trouver au sein de l'ouvrage des articles critiquant les deux systèmes. Illustration : il fallait une fois que la francophonie est aujourd'hui à ce point plurielle ouverte. La cohérence de l'ensemble est assurée par un comité de rédaction soucieux de la rigueur et de la qualité des contributions et qui a choisi de limiter les redites et contradictions potentielles. Par le fait qu'il va à l'essentiel et qu'il vise autant que possible l'emploi d'une terminologie linguistique trop spécialisée. L'Avenir du français s'adresse en premier lieu aux décideurs politiques économiques sociaux rassemblant leur intention d'une information essentielle leurs prises de décision. Les meilleures qualités en font un ouvrage répondant également aux attentes du grand public francophone souvent passionné par ces questions linguistiques qui font partie de son quotidien. L'ouvrage se ouvre sur une série de mises au point historiques et géographiques composant une sorte de bilan. L'évolution du français dans ses aspects politiques sans entrer dans des considérations purement linguistiques puis la situation du français dans plusieurs régions de la francophonie constituent l'entrée en matière. Les contributions suivantes offrent des vues d'ensemble relatives de grands domaines comme l'utilisation du français dans les sciences, les rapports entre langue française et économie, langue française et monde professionnel ou bien encore l'enseignement du français. La dernière partie la plus importante tente de donner pour l'avenir l'horizon du présent. Prolongement de l'exercice que celui qui consiste à dire ce que sera demain à dire un avenir du français quand certains doutent même qu'il puisse en avoir un. Pourra-t-il se maintenir face à la concurrence de l'anglais ? Réussira-t-il à nouer des partenariats avec les autres langues comme il les appelle aujourd'hui de leur voeux les instances francophones ? On retrouvera dans les dernières contributions aussi bien les clairages régionaux que les points de vue transversaux relatifs aux secteurs clés de la vie sociale. Par la vue d'ensemble qu'il offre par sa dimension prospective l'Avenir du français présente sur bien des plans des analyses et des données jamais encore mises à disposition du public y compris dans les plus récents ouvrages sur la francophonie. Et si il fallait ce livre une dernière justification, ce serait celle de prendre date pour l'avenir en osant prendre part à **Aventures d'un français au Maroc** Fernand Sarnette, 1905      **Studies in French Applied Linguistics** Dalila

Ayoun, 2008 Studies in French Applied Linguistics invites the reader to adopt a broad perspective on applied linguistics illustrating the fascinating multifaceted work researchers are conducted in so many various inter connected subfields The five chapters of the first part are dedicated to the first and second language acquisition of French in various settings First language acquisition by normal children from a generative perspective and by children with Specific Language Impairment second language acquisition in Canadian immersion settings from a neurolinguistic approach to phonology and natural language processing and CALL The six chapters of the second part explore the contribution of French in various subfields of applied linguistics such as an anthropological approach to literacy issues in Guadeloupean Kr y l literacy issues in new technologies phonological and lexical innovations in the banlieues French in North Africa language planning and policy in Quebec as well as the emerging field of forensic linguistics from an historical perspective    **L'Economiste français** ,1916

Francophone Cultures and Geographies of Identity Zsuzsanna Fagyal,H Adlai Murdoch,2014-07-03 This collection of original essays challenges French centered conceptions of francophonie as the shaping force of the production and study of the French language literature culture film and art both inside and outside mainland France The traditional view of francophone cultural productions as offshoots of their hexagonal avatar is replaced by a pluricentric conception that reads interrelated aspects of francophonie as products of specific contexts conditions and local ecologies that emerged from post colonial encounters with France and other colonizing powers The twenty one papers grouped into six thematic parts focus on distinctive literary linguistic musical cinematographic and visual forms of expression in geographical areas long defined as the peripheries of the French speaking world the Caribbean the Indian Ocean the Maghreb sub Saharan Africa Quebec and hexagonal cities with a preponderance of immigrant populations These contested sites of French collective identity offer a rich formulation of distinctly local francophone identities that do not fit in with concepts of linguistic and ethnic exclusiveness but are consistent with a pluralistic demographic shift and the true face of Frenchness that is indeed plural

*Le protectorat français au Maroc* Paul Chastand,1913    Political Belief in France, 1927-1945 Caroline Campbell,2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and

health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization's fearsome reputation as a violent paramilitary group While the efforts of the Women's Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their social agenda as a religious and patriotic duty a reflection of the individual's responsibility to make personal sacrifices on behalf of their vision for France's Christian civilization The Croix de Feu PSF's ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism Political Belief in France 1927-1945 contributes to the fields of French history gender studies the history of fascism and the history of empire **L'Économiste française**, 1928 **Forty Years of the Fifth French Republic** Maggie Allison, Owen Heathcote, 1999

organising and supervising cultural activity sought to embrace this vision and to implement it in the exploitation of antiquities the management and promotion of cultural heritage the organisation of education and the control of public opinion among the literate classes However an examination of the first five years of the League of Nations assigned mandate 1920 1925 reveals that French expectations of a protectorate were quickly dashed by widespread resistance to their cultural policies not simply among Arabists but also among minority groups initially expected to be loyal to the French The violence of imposing the mandate de facto starting with a landing of French troops in the Lebanese and Syrian coast in 1919 and followed by extension to the Syrian interior in 1920 was met by consistent violent revolt Examining the role of cultural institutions reveals less violent yet similarly consistent contestation of the French mandate The political discourses emerging after World War I fostered expectations of European tutelages that prepared local peoples for autonomy and independence Yet even among the most Francophile of stakeholders the unfolding of the first years of French rule brought forth entirely different events and methods In this book Idir Ouahes provides an in depth analysis of the shifts in discourses attitudes and activities unfolding in French and locally organised institutions such as schools museums and newspapers revealing how local resistance put pressure on cultural activity in the early years of the French mandate
