lead to a universal worldview capable of uniting East and West A positivist and pantheist Carus believed that by pursuing in religion the same path that science travels the narrowness of sectarianism would develop into a broad cosmical religion which shall be as wide and truly catholic as is science itself To lay the groundwork for this cosmical religion he investigates the figure of the Devil and the historical evolution of the concept of evil which he saw as predating belief in goodness and God With a beautifully designed cover and professionally typeset manuscript this edition of Paul Carus The History of the Devil is a classic of philosophy reimagined for modern readers
