Columbus and the Ends of the Earth Djelal Kadir, 2023-09-01 Columbus is the first blazing star in a constellation of European adventurers whose right to claim and conquer each land mass they encountered was absolutely unquestioned by their countrymen How a system of religious beliefs made the taking of the New World possible and laudable is the focus of Kadir's timely review of the founding doctrines of empire The language of prophecy and divine predestination fills the pronouncements of those who ventured across the Atlantic The effects of such language and their implications for current theoretical debates about colonialism and decolonization are legion Kadir suggests that in this supposedly postcolonial era richer nations and the privileged still manipulate the rhetoric of conquest to justify and serve their own worldly ends For colonized peoples who live today at the ends of the earth the age of exploitation may be no different from the age of exploration Columbus is the first blazing star in a constellation of European adventurers whose right to claim and conquer each land mass they encountered was absolutely unquestioned by their countrymen How a system of religious beliefs made the taking of the New Wo

Modernizing Main Street Gabrielle Esperdy,2010-07-15 An important part of the New Deal the Modernization Credit Plan helped transform urban business districts and small town commercial strips across 1930s America but it has since been almost completely forgotten In *Modernizing Main Street* Gabrielle Esperdy uncovers the cultural history of the hundreds of thousands of modernized storefronts that resulted from the little known federal provision that made billions of dollars available to shop owners who wanted to update their facades Esperdy argues that these updated storefronts served a range of complex purposes such as stimulating public consumption extending the New Deal s influence reviving a stagnant

construction industry and introducing European modernist design to the everyday landscape She goes on to show that these diverse roles are inseparable woven together not only by the crisis of the Depression but also by the pressures of burgeoning consumerism As the decade's two major cultural forces Esperdy concludes consumerism and the Depression transformed the storefront from a seemingly insignificant element of the built environment into a potent site for the physical and rhetorical staging of recovery and progress
