Some 200 scholars have contributed to the project which adopts a multi-layered approach allowing for comprehensive treatment of its subject matter. Mānoa, 1998 **SIROW.**, 1996 **The Sacred Place** W. Scott Olsen, Scott Cairns, 1996 An anthology of fiction, poetry and essays celebrates and contemplates the relationship between nature, spirituality and the supernatural. **Poets & Writers**, 1997 *The British National Bibliography* Arthur James Wells, 2001 **The Kenyon Review** John Crowe Ransom, 1997 Editor winter 1939 autumn 1941 J. C. Ransom **Sacred Landscapes and Cultural Politics** Philip P. Arnold, Ann Grodzins Gold, 2001 How do people in different cultural worlds think about relationships with nature? How do religious ideas become formative of landscape? How can indigenous traditions inform current cultural debates? This book explores ways in which religious perceptions and cultural values affect our understandings of relationships with nature and our actions in and upon the environment. Drawing on sources in literature, sacred texts, intellectual history, oral traditions, rituals and anthropological practices, the authors speak of realities in and across world regions including Africa, India, Japan and the USA. Unwilling to reduce the power of symbolic, mythic and cosmological thought, the authors highlight the shifting, illusive and perplexing aspects of the relationship between cosmology and landscape. Examining the interpenetration of religious, environmental and economic realities, this book includes critically positioned voices of Indigenous people on the cultural politics of ecological recovery. The authors offer a significant contribution to contemporary debates in the study of religion, nature, indigeneity and the challenges to colonialism. **God's Parallel Planets** Jack Waggoner, 2019-05-09 When God created heaven and earth, he also created Teren. Planet Teren is identical to Earth in every respect, including its placement in a duplicate solar system. Since creation, the two parallel planets developed along almost identical lines, and when God saw that the humans on each planet were not following his commandments, he decided to send his twin sons to intercede: one son to each planet. When both sons were confronted with crucifixion, God let it stand on Earth, and every other chapter gives the reader Earth's historical highlights for the past two thousand years, including each and every documented war. On planet Teren, however, God stepped in and not only resurrected Jesus but also then installed him as the CEO of the planet. From his base in Jerusalem, the Teren Jesus set the standards for human development and without war for that matter, any form of sin. The people of Teren turned their attention to making life meaningful, fulfilling, pleasant, and Christian. Every other chapter documents the development on Teren over the past two thousand years. On Earth, millions upon millions of human brains were scattered across a killing field after a killing field. What might have come out of those millions upon

millions of lost and destroyed brains We may find out as we take a tantalizing glimpse into life on God's Parallel Planets
