Gavrilyuk,Andrew P. Hofer,Matthew Levering,2024-06-03 Modern theological engagements on deification have undergone two major paradigm shifts First the study of deification shifted from the periphery of theological discourse to its center For

Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation. In response, the positive retrieval of the concept of deification belongs to the early years of the twentieth century. By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology, deification had become a magnet concept attracting attention from many different viewpoints. The second important shift relates to how deification is characterized. Recent studies question the exclusively Eastern character of deification and draw attention to the engagements of this theme in Latin patristic and later Western Christian sources. Reassessing the evidence for these two major shifts, *The Oxford Handbook of Deification* comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues. The Handbook's first part analyzes the cultural and scriptural roots of deification; the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods; the third part develops systematic connections. Readers will discover a surprising breadth, depth, and diversity of theologies of deification in Christian traditions. Throughout the Handbook, leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith.

How Then Shall We Guide? Jimmy Boon-Chai Tan, 2023-05-25

There has been a marked increase of interest in the art of spiritual direction in recent decades. Yet in many circles, especially in ecumenical and interfaith contexts, it is unclear what grounds the practice of this ancient art. As a tradition's practice of spiritual direction expresses its particular theology, which in turn is shaped by its unique history, this work explains that ecumenical spiritual direction must make and retain the tri-perspective of history, theology, and method that faithfully reflects each tradition's distinctives as requisite for true ecumenical enrichment. The importance of this trinocular vision is brought into sharp focus through a comparative study of Ignatius of Loyola and John Calvin, where points of continuity and discontinuity between the Ignatian and Reformed traditions underscore the importance of this work's thesis.

International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17

This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of, as well as collaboration between, religions has essential educational value. The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights, justice, and peace. Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions, and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith

movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity      **Sadliers' Catholic Directory, Almanac and Ordo** ,1876 With a full report of the various dioceses in the United States and British North America and a list of archbishops bishops and priests in Ireland
