Troyansky, 2015-10-05 In Aging in World History David G Troyansky presents the first global history of aging At a time when demographic aging has become a source of worldwide concern and more people are reaching an advanced age than ever before the history of old age helps us understand how we arrived at the treatment of aging in the modern world This concise volume expands that history beyond the West to show how attitudes toward aging the experiences of the aged and relevant demographic patterns have varied and coalesced over time and across the world From the ancient world to the present this book introduces students and general readers to the history of aging on two levels the experience of individual men and women and the transformation of populations With its attention to cultural traditions medicalization decades of historical scholarship and current gerontology Aging in World History is the perfect starting point for an exploration of this increasingly universal aspect of human experience Ethnicity and Old Age Sandra Torres, 2020-09-16 Winner of the Richard Kalish Innovative Publication Award 2021 Part of the Ageing in a Global Context series this book proposes a new research agenda for scholarship that focuses on ethnicity race and old age It argues that in a time of increased international migration population ageing and ethno cultural diversity scholarly imagination must be expanded as current research frameworks are becoming obsolete By bringing attention to the way that ethnicity and race have been addressed in research on ageing and old age with a focus on health inequalities health and social care intergenerational relationships and caregiving the book proposes how research can be developed in an ethnicity astute and diversity informed manner

Issues in Aging Mark Novak, 2015-07-22 Opportunities and optimism in Aging Issues in Aging 3rd edition takes an optimistic view of aging and human potential in later life This book presents the most up to date facts on aging today the issues raised by these facts and the societal and individual responses that will create a successful old age for us all Mark Novak presents the full picture of aging exhibiting both the problems and the opportunities that accompany older age The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions Learning Goals Upon completing this book readers will be able to Understand how large scale social issues social attitudes the study of aging and demographic issues affect individuals and social institutions Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know Separate the myths from the realities of aging Recognize the human side of aging Trace the transformation of pension plans health and opportunities for personal expression and social engagement to the new ecology of aging today Working with older people United States. Health Standards and Quality Bureau, 1978 Macro Social Influences on Loneliness in Later Life Marja Aartsen, Iuliana Precupetu, Bianca Suanet, 2025-07-31 This open access book explores the macro social influences on loneliness in later life emphasizing how societal structures cultural contexts and broader social transformations shape the experience of loneliness Dedicated to the social construction of loneliness and the notable heterogeneity in its prevalence

across European countries this volume brings together a distinguished selection of experts who share their latest insights on meso and macro level influences cultural and structural theories and the impact of digitalization climate change and societal crises Divided into five parts the book addresses key aspects of this complex issue The first part introduces the central themes outlining the relevance of loneliness as a societal concern and discussing the limitations of existing research which predominantly focuses on individual level factors It highlights the need for a multi level approach that incorporates micro meso and macro perspectives to fully understand the contextual influences on loneliness The second part delves into theoretical perspectives offering a comprehensive framework for understanding loneliness at different levels It examines the interplay between individual relational and societal factors while also exploring cultural and social exclusion perspectives that shed light on how loneliness manifests across different contexts. The third part presents empirical evidence focusing on variations in loneliness across different social groups and regions in Europe It synthesizes research on micro and meso level determinants while also providing a review of macro level influences. This part highlights the role of welfare regimes demographic trends and broader societal conditions in shaping the prevalence and experience of loneliness The fourth part explores recent societal developments that may influence loneliness including digitalization migration climate change and societal crises These emerging topics illustrate how macro level transformations can either alleviate or exacerbate loneliness depending on how they interact with existing social structures and individual circumstances The final part discusses methodological advancements and policy implications It introduces an innovative approach to analyzing macro social influences on loneliness and revisits the loneliness paradox in light of new findings The book concludes with policy recommendations and future research directions emphasizing the need for a holistic approach that integrates individual relational and societal dimensions to develop more effective interventions against loneliness In sum by adopting a macro social lens this book contributes to a deeper understanding of the societal cultural and policy related determinants of loneliness It offers a foundation for evidence based interventions that go beyond individual level solutions recognizing loneliness as a socially embedded phenomenon shaped by broader societal forces It is our hope and expectation that the book and its content will fundamentally change our understanding of loneliness and strategies to combat it
