Travel You Happy. [Women and the Travel Guidebook, 1870-c.1910](#) Jasmine Proteau, 2025-01-31 Although the printing giants of John Murray and Karl Baedeker dominated the nineteenth-century travel guidebook market, women were important producers and consumers of guides. This book argues that in the late nineteenth century, women were key cultural producers of travel guidebooks, an important form of non-fiction mass media during an upsurge and shift in European travel and tourism. While a limited number of studies have identified a small number of female-authored guidebooks, this is the first to take a broad view of women's place within the guidebook market, situating female-authored texts within a large and competitive book market to understand the role of gender in guidebook publication. Given Italy's historic religious, cultural and artistic significance to the Anglophone world, guides to Italy were perhaps the most numerous among all the guidebooks targeted at travellers from the United Kingdom and North America in the nineteenth century and therefore form a key focus of this study. [Handbook of British Travel Writing](#) Barbara Schaff, 2020-09-07 This handbook offers a systematic exploration of current key topics in travel writing.

studies It addresses the history impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters Combining theoretically informed astute literary criticism of single texts with the analysis of the circumstances of their production and reception these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing
