Good Kids Bad Behavior Helping Children Learn Self Discipline:

Good Kids, Bad Behavior Peter A. Williamson, 1990 Clinical psychologist Peter Williamson gives parents everywhere the confidence and know how they need in order to control children's misbehavior without guilt Williamson reassures parents that misbehavior is normal and that discipline should be viewed as teaching rather than punishing *Good Kids, Bad Behavior* Peter A. Williamson, 1991 A child psychologist takes an entirely new approach to discipline that will be a welcome relief to parents of two to eight year olds By emphasizing a teaching rather than a punishing attitude Dr Williamson creates a positive way to discipline effectively The Everything Parent's Guide To Tantrums Joni Levine, 2005-06-01 Does your child kick and scream when he doesn't get his way Have meal times and running errands become emotional battles The Everything Parent's Guide to Tantrums is your authoritative handbook to understanding what causes your child to have tantrums and which measures you can take to combat their occurrence Author Joni Levine helps you Understand your child's temperament Identify external influences that trigger tantrums Avoid responding emotionally to an outburst Use effective methods for calming your child Deal with tantrums in public Filled with realistic advice and practical tips The Everything Parent's Guide to Tantrums is your key to a happy well adjusted child and peace at home and elsewhere Mom in Daycareland Carlota Lindsay, Marshall Lindsay, 2002-04-15 Letter to the Reader Mom in Daycareland is about children but it is addressed both to parents and to providers of child care in the hope that these pages will help them understand each others needs and the stresses they experience in their respective childrearing and caregiving activities For the children's sake they must see each other not as antagonists but as partners in this most important of all careers molding the future of the human race Today the need for child care is more widely accepted by the general public than it was years ago We used to think that children should be reared at home and that a mother's job was to take care of them Now all this has changed Early every morning millions of mothers and fathers drive their children to child care providers and leave them there most often without feeling uneasy or guilty What has happened to cause this shift in our attitudes Why have we given up ideas that once seemed sacred and replaced them with a pragmatic way of doing things that would have made our grandmothers frown The authors remember a time when it was expected that Dad would go off to work every morning leaving Mom and the kids at home He had a job outside the home and brought back the paycheck she did the housework and cooking took care of the children Only occasionally were the children entrusted to someone else as when the parents went to a dinner party or a movie and had a local high school student over to sit or drove the kids to Grandmas for the night There were exceptions of course but this was the accepted pattern Today that pattern while still prevalent in some families is rare The social and economic realities of our country have changed radically and the structure of family life has had to adapt There are several reasons for the shift and others will undoubtedly surface at a later date but what seems to be the most important among them are the following Firstly to make ends meet today's parents are obliged more and more to share the burden of earning the wages Both Mom and Dad

need full time work if the family is to survive financially or if it is to satisfy the standard of living they are used to In the meantime who takes care of the children while both are at work Secondly another reason that helps explain why Mom works even when there is no pressing financial need for her to do so is the realization that women have an equal right to achieve their potentialities in the world of the professions and of labor Finally and perhaps most importantly an ever increasing number of households are managed by single parents When Mom or Dad is the only provider in the family no one is going to suggest that she or he stay home and watch the children That single job is essential to the survival of a family in an already precarious financial bind Even when the children are sick the single parent has to report to work in order to keep that precious job For these and other reasons the need for child care is a simple reality in our present society and the trend is likely to continue In most communities throughout the country groups of interested people argue that the availability of child care services is insufficient to meet current needs let alone the demands of a growing population We would like to talk about ourselves briefly as authors Both of us have had life careers in higher education In 1980 we devoted ourselves to child care and started a proprietary child care center in the Northwest It began small and then in time grew to a size of 35 preschoolers From the beginning Carlota operated the center from 6 30 a m to 6 00 p m as director teacher public relations person cook and janitor only recently has she begun coming home in the late afternoon Marshall was frequently teacher maintenance person and accountant It was difficult yet rewarding work and it taught us many things The purp

When Good Kids Make Bad Choices Elyse Fitzpatrick, James Newheiser, Laura Hendrickson, 2005-03-01 There is perhaps no greater fear in a parent's heart than the thought that a much loved and well cared for child will make bad choices or even become a prodigal What are parents to do in such circumstances Authors Jim Newheiser and Elyse Fitzpatrick speak from years of personal experience as both parents and biblical counselors about how hurting parents can deal with the emotional trauma of when a child goes astray They offer concrete hope and encouragement along with positive steps parents can take even in the most negative situations Includes excellent advice from Dr Laura Hendrickson regarding medicines commonly prescribed to problem children and offers questions parents can ask pediatricians before using behavioral medications A heartfelt and practical guide for parents
