Good Life And Its Discontent The American Dream In The Age Of Entitlement

Eric Foner

Good Life And Its Discontent The American Dream In The Age Of Entitlement:

The Good Life and Its Discontent Robert J. Samuelson, 1997-11-01 **The Good Life and Its Discontents** Robert J. The Good Life and Its Discontents Robert J. Samuelson, 1997-09-30 A New York Times Business Book Samuelson, 1997 Bestseller Shrewd and optimistic The Good Life and Its Discontents combines first rate analysis with persuasive historical political and sociological insights The New Republic Today Americans are wealthier healthier and live longer than at any previous time in our history As a society we have never had it so good Yet paradoxically many of us have never felt so bad For as Robert J Samuelson observes in this visionary book our country suffers from a national sense of entitlement a feeling that someone whether Big Business or Big Government should guarantee us secure jobs rising living standards social harmony and personal fulfillment In The Good Life and Its Discontents Samuelson a national columnist for Newsweek and the Washington Post links our rising expectations with our belief in a post Cold War vision of an American utopia Using history economics and psychology he exposes the hubris of economists and corporate managers and indicts a government that promises too much to too many constituencies Like David Reisman's The Lonely Crowd and John Kenneth Galbraith's The Affluent Society the result is a book that defines its time and that is sure to shape the national debate for years to come A smart balanced epitaph for an era with a few clues for what s ahead Business Week Lucid and nonsectarian Samuelson traces how the reasonable demand for progress has given way to the excessive demand for perfection The New York Times Good Life and Its Discontents Robert J. Samuelson, 1995 One of the country's most influential commentators attempts to explain why the richest most powerful and most democratic nation in the world is overcome by self doubt and confusion Samuelson takes a penetrating look at why Americans feel so bad when they are really doing so well and poses the crucial question Can America's leaders restore confidence by curbing government that has promised more than it can deliver

Story of American Freedom Eric Foner,1999-09-07 Freedom is the cornerstone of his sweeping narrative that focuses not only congressional debates and political treatises since the Revolution but how the fight for freedom took place on plantation and picket lines and in parlors and bedrooms Challenges for Work and Family in the Twenty-First Century

Dana Vannoy, Paula Dubeck, Stimulated by unprecedented and complex changes in the nation's social landscape the fourteen original papers in the present volume attempt to recast our approach to existing institutional arrangements between family and economy The authors set the stage for redefinitions that give meaning and place to individuals thus serving broader social goals

The Essential Ellen Willis Ellen Willis, 2014-04-23 Out of the Vinyl Deeps published in 2011 introduced a new generation to the incisive witty and merciless voice of Ellen Willis through her pioneering rock music criticism In the years that followed Willis's daring insights went beyond popular music taking on such issues as pornography religion feminism war and drugs The Essential Ellen Willis gathers writings that span forty years and are both deeply engaged with the times in which they were first published and yet remain fresh and relevant amid today's seemingly intractable political

and cultural battles Whether addressing the women's movement sex and abortion race and class or war and terrorism Willis brought to each a distinctive attitude passionate yet ironic clear sighted yet hopeful Offering a compelling and cohesive narrative of Willis's liberationist transcendence politics the essays among them previously unpublished and uncollected pieces are organized by decade from the 1960s to the 2000s with each section introduced by young writers who share Willis's intellectual bravery curiosity and lucidity Irin Carmon Spencer Ackerman Cord Jefferson Ann Friedman and Sara Marcus. The Essential Ellen Willis concludes with excerpts from Willis's unfinished book about politics and the cultural unconscious introduced by her longtime partner Stanley Aronowitz An invaluable reckoning of American society since the 1960s this volume is a testament to an iconoclastic and fiercely original voice The Future of American Democracy Glen. Browder, 2002 Former congressman Browder is worried that the current trends of American democracy might result in a Union of Socialist States of America or worse He suggests that we re suffering from a cumulative distemper in which we may be tiring of America's historic Great Experiment He offers vague prescriptions about embarking on a National Democratic Renaissance and rediscovering the essence of our American nation Annotation copyrighted by Book News Inc Portland OR

California in the New Millennium Mark Baldassare, 2002-05-15 A joint publication with the Public Policy Institute of Sold American Charles F. McGovern, 2009-01-06 At the turn of the twentieth century an emerging consumer California culture in the United States promoted constant spending to meet material needs and develop social identity and self cultivation In Sold American Charles F McGovern examines the key players active in shaping this cultural evolution advertisers and consumer advocates McGovern argues that even though these two professional groups invented radically different models for proper spending both groups propagated mass consumption as a specifically American social practice and an important element of nationality and citizenship Advertisers McGovern shows used nationalist ideals icons and political language to define consumption as the foundation of the pursuit of happiness Consumer advocates on the other hand viewed the market with a republican inspired skepticism and fought commercial incursions on consumer independence The result says McGovern was a redefinition of the citizen as consumer The articulation of an American Way of Life in the Depression and World War II ratified consumer abundance as the basis of a distinct American culture and history **Private** Needs, Public Selves John K. Roth, 1997 Polls through the 90s show that many Americans believe the nation is in a period of spiritual decline yet public religious display and discussion often is deemed politically incorrect Philosopher John K Roth feels that more outward sharing of religious beliefs thoughts and ideas would bridge the gap between our private needs and our public selves and would give Americans of differing faiths a common identity Post-traumatic Culture Kirby Farrell,1998-09-29 According to author Kirby Farrell the concept of trauma has shaped some of the central narratives of the 1990s from Vietnam war stories to the video farewells of Heaven's Gate cult members. In this unique study Farrell explores the surprising uses of trauma as both an enabling fiction and an explanatory tool during periods of overwhelming cultural

change Changes in American Morality Frank S. Farello, 2001-07-27 CHANGES IN AMERICAN MORALITY OF THE PEOPLE BY THE PEOPLE FOR THE SELF contends that America has lost touch with the fundamental ethics of its founding principles This coupled with the deleterious effects of individualism liberalism materialism and relegating religion to the fringes of the public forum has undermined America's achievement of a truly common good. The result is a serious deterioration of our former collectively conceived moral compass in favor of a more personally composed moral code This code often blurs the boundaries between right and wrong as the attainment of an unbridled self satisfaction takes precedence above all else Therefore America has become a nation of competing individuals each seeking to extract ever increasing levels of personal pleasure and fulfillment from every possible source often at the expense of our collective civil and social associations our local communities even our families With the works of the Founders and many of America's recent and modern social thinkers as references Mr Farello achieves a thorough examination and explanation of the evolution of many of America's current social ills and arrives at a number of solid solutions to those problems. This book is must reading for anyone concerned with American society s current direction The New Majority Stanley B. Greenberg, Theda Skocpol, 1997-01-01 The contributors to this volume argue that America is ready for progressive politics and that embarking on a popular progressive course the Democratic Party can become the moral voice of all American families striving for a better life **Requiem For Modern Politics** William Ophuls, 2019-05-20 This long promised sequel to Ophuls s influential and controversial classic Ecology and the Politics of Scarcity is an equally provocative critique of the liberal philosophy of government Ophuls contends that the modern political paradigm that is the body of political concepts and beliefs bequeathed to us by the Enlightenment is no longer intellectually tenable or practically viable Our attempt to live individualistically hedonistically and rationally has failed utterly causing a comprehensive crisis that is at once political military economic ecological ethical psychological and spiritual Liberal politics has abandoned virtue rejected community and flouted nature thereby becoming the author of its own demise By exposing the intrinsically contradictory and self destructive character of Hobbesian political systems Ophuls subverts our conventional wisdom at every turn Indeed his impassioned text reads more like a Greek tragedy than a conventional political argument He critiques feminism multiculturalism the welfare state and a host of other liberal shibboleths but Ophuls is not yet another neoconservative The aim of his thesis is far more radical and progressive offering a political vision that entirely transcends the categories of liberal thought His is a Thoreauvian vision of a politics of consciousness rooted in ecology as the moral and intellectual basis for governance in the twenty first century Ophuls holds that a polity based on a renewed erotic connection with nature offers a genuine solution to this crisis of contemporary civilization and that only within such a polity will it be possible to fulfill the worthy liberal goal of individual self development Ophuls s work will interest and challenge a wide spectrum of readers though it will not necessarily be well liked or easily accepted No one will put down this book with his or her settled convictions about American culture intact nor

will readers ever again take modern civilization and its survival for granted Mad as Hell Dominic Sandbrook, 2012-02-14 I m mad as hell and I m not going to take it anymore The words of Howard Beale the fictional anchorman in 1976 s hit film Network struck a chord with a generation of Americans In this colourful new history Dominic Sandbrook ranges seamlessly over the political economic and cultural high and low points of American life in the 1970s exploring the roots of the fears resentments cravings and disappointments we know so well today From Richard Nixon and Ronald Reagan to Anita Bryant and Jerry Falwell he shows how the 1970s saw the emergence of a new right wing populism setting the stage for the bitter partisanship and near total cynicism of our modern political landscape Social Administration Roger A. Lohmann, Nancy Lohmann, 2002 Encompassing management approaches such as Theory Z and research of nonprofit studies this book addresses ways in which skills and activities of social administration can further social work practice in the areas of social justice confronting oppression The Practice of Outsourcing Mary C. Lacity, Leslie P. Willcocks, 2009-06-25 A close look at the main developments in IT business processes and offshore outsourcing This book studies these topics in both theory and practice exploring the rising prominence of outsourcing with a multi dimensional contextual perspective The Journal of Social, Political and Economic Studies ,1996 The American Spectator ,1996
