Documents of the Assembly of the State of New York New York (State). Legislature. Assembly, 1899 On Images. Visual Culture, Memory and the Play without a Script Matthias Smalbrugge, 2021-12-30 Matthias Smalbrugge compares modern images to plays without a script while they appear to refer to a deeper identity or reality it is ultimately the image itself that truly matters He argues that our modern society of images is the product of a destructive tendency in the Christian notion of the image in general and Augustine of Hippo's in particular This insight enables him to decode our current scripts of image As we live in an increasingly visual culture we are constantly confronted with images that seem to exist without a deeper identity or reality but did this referential character really get lost over time Smalbrugge first explores the roots of the modern image by analysing imagery what it represents and its moral state within the framework of Platonic philosophy He then moves to the Augustinian heritage in particular the Soliloquies the Confessions and the Trinity where he finds valuable insights into images and memory He explores within the trinitarian framework the crossroads of a theology of grace and a theology based on Neoplatonic views Smalbrugge ultimately answers two questions what happened to the referential character of the image and can it be recovered **Journal of the ... *God and the Liberation of Reason in French Philosophy* Stephanie Rumpza, M. E. Littlejohn, 2025-09-18 In an age where thinking is too often restricted to its scientific exercise how better to liberate the full powers of our reason than to engage with the possibility of what exceeds them What better way to measure our progress beyond modernist metaphysics and the contemporary nihilism it generated than to discuss the question of God Written by specialists in French philosophy the essays in this volume use the question of God to identify problematic metaphysical patterns still carved into our thought as well as to reconstruct new paths for philosophy that open beyond these limitations Discussing the work of Kant Nietzsche Husserl Heidegger H ring Levinas Derrida and others contributions range across topics including the influence of Neo Platonic philosophy on theology the errors of modern rationalism and phenomenology s interest in religion Even when drawing on resources from faith traditions this French engagement with the question of God defies any simplistic attempt to relegate its efforts to theology the authors of this volume clearly demonstrate its deeply embedded relation to the history of thought and its relevance to questions central for the task of philosophy today With a special attention the work of significant philosophers less known outside of France this volume promises to deepen the Anglophone reception and understanding of contemporary French philosophy

*Phenomenology* Brian Harding, Michael R. Kelly, 2016-06-30 Taking the term phenomenologist in a fairly broad sense Early Phenomenology focuses on those early exponents of the intellectual discipline such as Buber Ortega and Scheler rather than those thinkers that would later eclipse them indeed the volume precisely means to bring into question what it means to be a phenomenologist a category that becomes increasingly more fluid the more we distance ourselves from the gravitational pull of philosophical giants Husserl and Heidegger In focusing on early phenomenology this volume seeks to examine the movement before orthodoxies solidified More than merely adding to the story of phenomenology by looking closer at thinkers without the same fame as Husserl or Heidegger and the representatives of their legacy the essays relate to one of the earlier thinkers with figures that are either more contemporary or more widely read or both Beyond merely filling in the historical record and reviving names the chapters of this book will also give contemporary readers reasons to take these figures

seriously as phenomenologists radically reordering of our understanding of the lineage of this major philosophical movement
