Science Fiction, Canonization, Marginalization, and the Academy Gary Westfahl, George Slusser, 2002-01-30 Science fiction occupies a peculiar place in the academic study of literature For decades scholars have looked at science fiction with disdain and have criticized it for being inferior to other types of literature But despite the sentiments of these traditionalists many works of science fiction engage recognized canonical texts such as the Odyssey and many traditionally canonical works contain elements of science fiction More recently the canon has been subject to revision as scholars have deliberately sought to include works that reflect diversity and have participated in the serious study of popular culture But these attempts to create a more inclusive canon have nonetheless continued to marginalize science fiction This book examines the treatment of science fiction within the academy The expert contributors to this volume explore a wide range of topics related to the place of science fiction in literary studies These include academic attitudes toward science fiction the role of journals and cultural gatekeepers in canon formation and the marginalization of specific works and authors by literary critics In addition the volume gives special attention to multicultural

and feminist concerns In discussing these topics the book sheds considerable light on much broader issues related to the politics of literary studies and academic inquiry

Morning Child and Other Stories Gardner Dozois, 2012-11-15 A collection of award winning science fiction written by two time Nebula award winner Gardner Dozois Here you ll find Dozois short stories *Morning Child* and *The Peacemaker* both winners of the Nebula for best science fiction short story Also includes Dozois classics *A Dream at Noonday* *Chains of the Sea* *The Hanging Curve* *The Bride with Jack Dann* and *Ancestral Voices* with Michael Swanwick From the introduction The stories in this collection were published between 1970 and 2003 and thus represent a considerable chunk perhaps a majority share of not only my career but my life when some critic asks me what was in my mind when I came up with a certain trope in one of those stories or what some bit of symbolism really means why I chose some word or image instead of another or sometimes even just what the specific inspiration for a story was often I just can t tell him I m not that kid anymore So perhaps it s an odd way to review your career by the places where you ve lived Probably not very satisfactory to the critics The most disgruntled among them will just have to get that time machine and go back and ask that bright eyed young twenty year old kid about his work If you see him say hi for me Gardner Dozois is known for his beautiful evocation of setting and emotional intensity within a truly alien and often austere vision of the future He is a science fiction master of the first order a fact fully on display in this outstanding collection At the publisher s request this title is sold without DRM Digital Rights Management
