## **Good Times Hard Times The Past And The Future In Elizabeth:**

Inequality in Australia Alastair Greig, Frank Lewins, Kevin White, 2003-02-17 This text seeks to analyse and explain inequality challenging traditional conceptions and providing a new critical perspective The authors provide a comprehensive historical account of inequality and show how that account no longer adequately explains the new and different forms of inequality experienced in recent decades As society has changed they argue new forms of inequality have emerged conditioning the subject's very experience of identity embodiment and politics The book is at once a critical overview of contemporary inequality and a thorough going textbook suitable for undergraduates **Good Times, Hard Times** Mark Peel, 1995 Good Times Hard Times is local history with a difference Mark Peel presents a passionate view of a place where ordinary Australians built a new community and new lives only to see them undermined by the profound economic and social changes that have accompanied our transition from the relative prosperity of the 1960s to the uncertainties of the 1990s The South Australian town of Elizabeth stands as a powerful example for all such communities throughout Australia Founded as a model town in the 1950s Elizabeth has experienced the most important changes of modern Australia the hopes and failures of postwar town planning and reconstruction the flow of migrants and working people into new suburbs on the fringes of Australian cities the impact of economic downturns on these people's fortunes in the 1970s and 1980s the growth and decay of manufacturing the changing attitudes of governments and other institutions to inequality and poverty Mark Peel examines the structural roots of these changes and his insight into the often devastating human consequences of economically driven decision making gives the book its power BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Population, Migration and Settlement in Australia and the Asia-Pacific** Natascha Klocker, Olivia Dun, 2018-12-07 The chapters in this book reflect on the work of seminal Australian geographer the late Professor Graeme Hugo Graeme Hugo was widely respected because of his impressive contributions to scholarship and policy in the fields of migration population and development which spanned several decades This collection of works contains contributions from authors whose own research has been influenced by Hugo and includes numerous authors who worked closely with Hugo throughout his career The collection provides an opportunity to reflect on Hugo's legacy and also to foreground contemporary scholarship in his key areas of research focus The chapters are organised into two thematic threads Part I contains works relating to Population Migration and Settlement in Australia while Part II focuses on Labour and Environmental Migration in the Asia Pacific Together these two thematic threads provide broad coverage of Graeme Hugo's key areas of research focus The chapters also serve as a reminder of Hugo's steadfast concern with producing careful scholarship for the public good and seek to prompt continued work in this vein The chapters originally published in special issues in Australian Geographer Sociology Australia Judith Bessant, 2020-07-16 Sociology gives us the tools we need to understand our life and the lives of the people around us It reveals that our commonsense view of the world isn't always right

and enables us to find out what actually shapes our experiences In this widely used and very readable introductory text Judith Bessant and Rob Watts show us how to develop a sociological perspective on what is happening in Australia today Rapid and far reaching social changes are taking place which affect us all globalisation is impacting on our economy and culture technological developments increase the pace of life and many people worry about the decline of traditional values and about environmental and personal security Using a sociological perspective we can explain why different groups of people experience these changes as exciting unsettling or devastating Sociology Australia is structured around six key questions What is sociology Who are we and how do we come to be who we are How do we know the world in which we live Can we make our lives as we want them Who makes the decisions that shape our society What changes are taking place in Australia today Sociology Australia is an ideal introduction to the discipline of sociology and to the dynamics of Australian society today This third edition of Sociology Australia has been substantially revised and updated and includes new chapters on religion education and sustainability

**Reimagining Class in Australia** Henry Paternoster, 2017-09-21 This book re evaluates New Left and Marxist texts from the 1980s in order to explore problems facing the study of class which have emerged within Australian and international theories The author contrasts the popular ideas of Connell Bourdieu and the Death of Class thesis with those of lesser known texts concluding that no single definition can account for the various historical meanings of class Instead loosely following Castoriadis the concept of class can best be understood as creatively imagined and institutionalised Paternoster proposes that class is best studied through historical phenomenology which can be used to link political economy cultural sociology and anthropological ethnographies This approach allows the contributions of Marxist and New Left authors to be reintegrated with contemporary theories Doing so highlights the significance of labour populism while cautioning against the ahistorical applications of texts such as Bourdieu's Distinction Reimagining Class in Australia will be of interest to students and scholars across a range of disciplines including sociology history political economy and anthropology

The Price of Prosperity Richard Taylor,Peter Saunders,2002 While our leaders celebrate Australia s economic miracle unemployment particularly long term unemployment has become a permanent feature of Australia s economic landscape Its unacceptably high level has proved remarkably resistant in the face of sustained economic growth and increased prosperity The adverse economic and social consequences of high unemployment are likely to leave long term scars on those affected as well as on local communities and the entire fabric of Australian society Yet these effects rarely feature on the policy agenda and the costs of unemployment remain largely invisible An Australian Indigenous Diaspora Paul Burke,2018-07-27 Some indigenous people while remaining attached to their traditional homelands leave them to make a new life for themselves in white towns and cities thus constituting an indigenous diaspora This innovative book is the first ethnographic account of one such indigenous diaspora the Warlpiri whose traditional hunter gatherer life has been transformed through their dispossession and involvement with ranchers missionaries and successive government projects of recognition By following several Warlpiri matriarchs into their new locations far from their home settlements this book explores how they sustained their independent lives and examines their changing relationship with the traditional culture they represent *Globalizing Cities* Peter Marcuse,Ronald Van Kempen,2011-07-18 This exciting collection of original essays provides students and professionals with an international and comparative examination of changes in global cities revealing a growing pattern of social and spatial division or polarization

**Understanding Trust in Government** Scott E. Robinson,James W. Stoutenborough,Arnold Vedlitz,2017-04-28 Growing disenfranchisement with political institutions and policy processes has generated interest in trust in government For the most part research has focused on trust in government as a general attitude covering all political institutions In this book Scott E Robinson James W Stoutenborough and Arnold Vedlitz argue that individual agencies develop specific reputations that may contrast with the more general attitudes towards government as a whole Grounded in a treatment of trust as a relationship between two actors and taking the Environmental Protection Agency as their subject the authors illustrate that the agency s reputation is explained through general demographic and

ideological factors as well as policy domain factors like environmentalism The book presents results from two approaches to assessing trust 1 a traditional attitudinal survey approach and 2 an experimental approach using the context of hydraulic fracturing While the traditional attitudinal survey approach provides traditional answers to what drives trust in the EPA the experimental results reveal that there is little specific trust in the EPA across the United States Robinson Stoutenborough and Vedlitz expertly point the way forward for more reliable assessments of trust while demonstrating the importance of assessing trust at the agency level This book represents a much needed resource for those studying both theory and methods in Public Administration and Public Policy
