Goods Power History Latin Americas Material Culture:

Goods, Power, History Arnold J. Bauer, 2001-04-30 Why do we acquire the things we do Behind this apparently ingenuous question are several answers some straightforward and others more interesting To feed ourselves might be the first response for we can easily see that we expend much energy in the quest for food Clothing and shelter as well would seem to constitute our basic needs Yet we quickly see that even in the Garden of Eden people want more than they need This simple impulse has created the ever mounting abundance we call progress and nearly all of the subsequent trouble on our planet Four main interwoven themes run through this exploration of material culture and consumption in Latin America over the past five centuries supply and demand the relationships between consumption and identity the importance of ritual both ancient and modern in what we buy and the relationship between colonial and post colonial power in consumption

Cotton Giorgio Riello, 2015-04-16 Today's world textile and garment trade is valued at a staggering 425 billion We are told that under the pressure of increasing globalisation it is India and China that are the new world manufacturing powerhouses However this is not a new phenomenon until the industrial revolution Asia manufactured great quantities of colourful printed cottons that were sold to places as far afield as Japan West Africa and Europe Cotton explores this earlier globalised economy and its transformation after 1750 as cotton led the way in the industrialisation of Europe By the early nineteenth century India China and the Ottoman Empire switched from world producers to buyers of European cotton textiles a position that they retained for over two hundred years This is a fascinating and insightful story which ranges from Asian and European technologies and African slavery to cotton plantations in the Americas and consumer desires across the globe

Bandits and Liberals, Rebels and Saints Alan Knight, 2022-05 In Bandits and Liberals Rebels and Saints Alan Knight offers a distinct perspective on several overarching themes in Latin American history spanning approximately two centuries from 1800 to 2000 Knight's approach is ambitious and comparative sometimes ranging beyond Latin America and combining relevant social theory with robust empirical detail He tries to offer answers to big questions while challenging alternative answers and approaches including several recently fashionable ones While the individual essays and the book as a whole are roughly chronological the approach is essentially thematic with chapters devoted to major contentious themes in Latin American history across two centuries the sociopolitical roots and impact of banditry the character and evolution of liberalism religious conflict the divergent historical trajectories of Peru and Mexico the nature of informal empire and internal colonialism and the region's revolutionary history viewed through the twin prisms of British perceptions and comparative global history

Couture and Consensus Regina A. overarching schemes of Latin American literary history and have been largely forgotten Nevertheless eighteenth century Ibero American writing complicates narratives about both the Enlightenment and Latin American cultural identity The Market and the Masses in Latin America Andy Baker,2009-03-23 What do ordinary citizens in developing countries think about free markets Conventional wisdom views globalization as an imposition on unwilling workers in developing nations concluding that the recent rise of the Latin American left constitutes a popular backlash against the market In this book Baker marshals public opinion data from eighteen Latin American countries to show that most of the region s citizens are enthusiastic about globalization because it has lowered the prices of many consumer goods and services while improving their variety and quality Among recent free market reforms only privatization has caused pervasive discontent because it has raised prices for services like electricity and telecommunications Citizens sharp awareness of these consumer consequences informs Baker s argument that a political economy of consumption has replaced a previously dominant politics of labor and class in Latin America

Sharing Yerba Mate Rebekah E. Pite, 2023-09-14 Drinking yerba mate is a daily communal ritual that has brought together South Americans for some five centuries In lively prose and with vivid illustrations Rebekah E Pite explores how this

Indigenous infusion made from the naturally caffeinated leaves of a local holly tree became one of the most distinctive and widely consumed beverages in the region. Latin American food and commodity studies have focused on consumption in the global north but Pite tells the story of yerba mate in South America illuminating dynamic and exploitative circuits of production, promotion, and consumption. Ideas about who should harvest and serve yerba mate along with visions of the archetypal mate drinker persisted and were transformed alongside the shifting politics of class, race, and gender. This global history takes us from the colonial Río de la Plata to the top yerba-consuming and producing nations of Argentina, Brazil, Paraguay, and Uruguay with excursions to Chile, the Middle East, Europe, and the United States where yerba mate is now sold as a superfood. For readers eager to understand South America and its unique drink, *Sharing Yerba Mate* is an essential text that delves into an everyday ritual to expose systems of power and the taste of belonging.
