[Minnesota History](#) Theodore Christian Blegen, Theodore Ludwig Nydahl, 1960 *Minnesota History* was first published in 1960. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. Anyone interested in Minnesota history, whether as a teacher, as a student, or as a general reader, will find this an invaluable guide to reading and study. The book contains an outline of the state's history, questions and suggestions for the student, and lists of reading material for each of the 42 topical sections into which the outline is divided. The outline covers the entire history of the state from the time of the Indians before the French and British explorations to the present. The reading references include accounts written from the seventeenth through the twentieth centuries. The aim in preparing the reading lists was to include any article or book bearing upon the Minnesota story which met the qualifications of good historical writing and fair accessibility. Materials of particular interest or importance to the topic under consideration are so designated, and there are liberal annotations to help the reader in his choice of readings. References which are particularly appropriate for young readers are also specially designated. A number of maps are provided for
